ICU INTERNATIONAL CHEERLEADING CUP 2024

(For Individual Club Teams – Not National Teams)

ABOUT THE EVENT

- I. **OVERVIEW:** On Sunday & Monday 28 & 29 April 2024, during IASF/USASF Worlds and following the 2024 ICU Junior World & World Championships at Disney World's **ESPN Wide World of Sports®** Complex in Orlando USA, the ICU will host the 2nd edition of the ICU International Cheerleading Cup 2024 specifically for Individual "Club Teams" (not National Teams) that are Club Teams, Scholastic Teams (university teams & scholastic/school teams), Gymnasium/Gimnasio Teams, League Teams, Rec Teams, All Star Teams, etc. that will represent their own team but also their country in high level international competition.
- II. **TEAM QUALIFICATION:** Each of ICU's 119 National Cheer Federations may qualify up to 2 Individual Cheerleading "Club Teams" (up to 12 Club Teams total) for their respective country for the ICU International Cheerleading Cup to be held during Cheerleading Worlds at Disney World's **ESPN Wide World of Sports®** Complex in Orlando, USA on Sunday & Monday 28 & 29 April 2024.

The ICU International Cheerleading Cup has 12 Cheerleading Divisions available & 2 Performance Cheer Doubles Divisions available (for Individual Club Teams – see below) for a total of 14 ICC Divisions.

For the 12 Cheerleading Divisions, National Federations can qualify teams each age group (All Girl or Coed), and National Federations must select one of the two levels available for each All Girl Team & Coed Division Team (e.g., Senior = Premier or Elite / Junior = Elite or Advanced / Youth = Advanced or Median) that qualifies for the event. Therefore, out of 12 total divisions for the ICU International Cheerleading Cup, ICU NATIONAL FEDERATIONS have the RIGHT TO QUALIFY up to 2 Cheerleading Club Teams for 6 of the 12 International Cheerleading Cup Divisions available (up to 12 cheerleading club teams total per country/National Federation).

For the 2 Performance Cheer Divisions (Pom Doubles and Hip Hop Doubles), ICU NATIONAL FEDERATIONS have the RIGHT TO QUALIFY up to 2 Pom Doubles Teams and up to 2 Hip Hop Doubles Teams (crossovers are allowed) or up to 4 Doubles Team entries total.

For both the ICU ICC Cheerleading and Performance Cheer Divisions, ICU National Federation can qualify individual teams via the following methods:

- **ICU National Federation National Championship(s)** and/or an ICU National Federation designated event within the country
- **Local Event Producer(s) Competition(s)** pre-designated by ICU National Federation within the country
- **By ICU National Federation Committee**, video submission, or any manner pre-communicated to their cheer community within their respective country

Note: For example, the Austria Federation could select the "Vienna Vikings" to represent the "Vienna Vikings from Austria" at the ICU International Cup instead of representing "Team Austria"; the Colombia Federation could select "Osos All Stars" or "Colegio Santa Ana" under their own team name instead of "Team Colombia"; the USA Federation could select "U of Louisville", or "Mater Dei High School", or "Top Gun All Stars" "from the USA", etc. to be competing under their own name instead of "Team USA"; the South Africa Federation could select "Curro Aurora School" to be "Curro Aurora School" "from South Africa" instead of "Team South Africa"; Thailand Federation could select "Bangkok University" to be "Bangkok University from Thailand", instead of "Team Thailand"; etc.

- III. FOR CHEERLEADING DIVISIONS & PERFORMANCE CHEER DOUBLES DIVISIONS ONLY:** The 2024 ICU International Cheerleading Cup will only be for Cheerleading Teams Only & Performance Cheer Pom & Hip Hop Doubles Divisions Only (no Performance Cheer TEAMS) because the IASF Performance Cheer TEAM Divisions are already similar in criteria to that of ICU. Per the same rules since 2009, ICU National Teams have the option to join the IASF Divisions or the ICU International Cup Divisions; and as the IASF Performance Cheer TEAM Divisions & criteria are very similar to the ICU World Championships, only Cheerleading Divisions & Performance Cheer Doubles Divisions will be offered for the ICU International Cheerleading Cup in 2024.
- IV. CROSS-OVER GUIDELINES:** Crossovers are allowed within the ICU Junior World & World Cheerleading Championships event, the International Cheerleading Cup Event (ICC), and within the IASF Performance Cheer (PC) Divisions Only (per the IASF PC Rules). However, for scheduling purposes, Crossovers are not allowed for any Cheerleading Team within the 4 days of the IASF/USASF Worlds and ICC Teams may not crossover into IASF/USASF Worlds for scheduling reasons. As is the rule since 2009, ICU National Teams are allowed to crossover into the IASF divisions or ICU International Cheerleading Cup Divisions; however, all IASF & ICU International Cheerleading Cup eligibility and rules criteria apply.
- V. RULES, SCORESHEETS & JUDGING PROCESSES:** The 2024 ICU International Cheerleading Cup Divisions Rules and Scoresheets will be the same rules and scoresheets used at the 2024 ICU Junior World & World Cheerleading Championships and will be judged by ICU World Championships Panel of Judges.
- VI. DIVISIONS:** The ICU International Cheerleading Cup has 12 Cheerleading Divisions and 2 Performance Cheer Doubles Divisions (for Individual Club Teams).

- J. Props with poles or similar support apparatus may not be used in conjunction with any kind of stunt or tumbling.
Exception: Adaptive Abilities & Special Abilities Athlete mobility/support devices.
Clarification: As is common with Cheerleaders at sporting events; for divisions that allow the standing single back tuck flip skill, an athlete, already proficient in a standing single back tuck flip skill, may perform a standing single back tuck flip with poms only in the athlete's hands during the Cheer portion of the routine.
- K. All props must be safely discarded out of harm's way (example: throwing a hard sign across the mat from a stunt is not allowed). Any uniform piece purposefully removed from the body and used for visual effect will be considered a prop once it is removed from the body.
- L. Supports, braces and soft casts that are unaltered from the manufacturer's original design/ production do not require additional padding. Supports, braces and soft casts that have been altered from the manufacturer's original design/production must be padded with a closed-cell, slow-recovery foam padding no less than ½ inch/1.27 centimeters thick if the participant is involved in tumbling, stunts, pyramids, or tosses. An athlete wearing a hard cast (example: fiberglass or plaster) or a walking boot must not be involved in tumbling, stunts, pyramids or tosses.
Exception: For Adaptive Abilities & Special Abilities Athletes, a mobile assistance, and support devices in use to assist the athlete are considered part of the Athlete.
- M. From a level grid standpoint, all skills allowed at a particular level additionally encompass all skills allowed in the preceding levels.
- N. Required spotters for all skills must be your own team's members and be trained in proper spotting techniques.
- O. Drops including but not limited to knee, seat, thigh, front, back and split drops from a jump, stunt, or inverted position are not allowed unless the majority of the weight is first borne on the hands or feet, which breaks the impact of the drop. Shushinovs are allowed.
Clarification: Drops that include any weight bearing contact with the hands and feet are not in clear violation of this rule.

- P. Athletes must have at least one foot, hand, or body part (other than hair) on the performing surface when the routine begins. Exception: Athletes may have their feet in the hands of base(s) if the base(s) hands are resting on the performing surface.
- Q. The competitors who begin a routine must remain the same throughout the course of a routine. An athlete is not permitted to be “replaced” by another athlete during a routine.
- R. An athlete must not have gum, candy, cough drops or other such edible or non-edible items, which may cause choking, in her/his mouth during practice and/or performance.
- S. For purposes of promotion of international sport and the global athletic image of the Sport of Cheer, athletes must compete in national team attire that does not intentionally expose the midriff/mid-section of the athlete while the athlete is in a standing position

II. DIVISIONS (BY LEVEL) - SAFETY RULES

ICU MEDIAN DIVISION RULES **(YOUTH MEDIAN DIVISIONS)**

MEDIAN DIVISION - GENERAL TUMBLING

- A. All tumbling must originate from and land on the performance surface.
Clarification: A tumbler may rebound from his/her feet into a transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.
Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.
- B. Tumbling over, under, or through a stunt, individual, or prop is not allowed, unless the “prop” is mobility equipment for an Adaptive Abilities athlete.
Clarification: An individual may jump (rebound) over another individual.
- C. Tumbling while holding or in contact with any prop is not allowed, unless the “prop” is mobility equipment for an Adaptive Abilities athlete.
Clarification: Although not applicable for the Median Division as flips are not allowed; for divisions that allow flips (e.g., Advanced-Premier Divisions), athletes already proficient in a standing single back tuck flip skill may perform a standing single back tuck flip with poms only in the athlete’s hands during the Cheer portion of the routine.
- D. Dive rolls are allowed.
Exception 1: Dive rolls performed in a swan/arched position are not allowed.
Exception 2: Dive rolls that involve twisting are not allowed.
- E. Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump skill is included in a tumbling pass, the jump will break up the pass.
Example: If an athlete in the Median Division performs a round off - toe touch - back handspring- back tuck, this combination of skills would not be allowed since a back tuck is not allowed within the Median Division Standing Tumbling regulations.

MEDIAN DIVISION - STANDING TUMBLING

- A. Flips are not allowed.
Clarification: Jumps connected to $\frac{3}{4}$ front flips are also not allowed.
- B. Series front and back handsprings are allowed.
- C. No twisting while airborne.
Exception: Round offs are allowed.

MEDIAN DIVISION - RUNNING TUMBLING

- A. Flips must follow the enclosed conditions:

1. Back flips may ONLY be performance in tuck position only from a round off or round off back handspring(s). Examples of skills not allowed: X-outs, layouts, layout step outs, whips, pikes, aerial walkovers, and Arabians.
 2. Other skills with hand support prior to the round off or round off back handspring are allowed. Example: Front handsprings and front walkover through to round off back handspring back tucks are allowed.
 3. Cartwheel tucked flips and/or cartwheel to back handsprings(s) to tucks are not allowed.
 4. Aerial cartwheels, running front tucks, and $\frac{3}{4}$ front flips are allowed.
Clarification: A front handspring (or any other tumbling skill) into a front tuck is not allowed.
- B. No tumbling is allowed after a flip or an aerial cartwheel.
Clarification: If any tumbling follows a flip or an aerial cartwheel, at least 1 step into the next tumbling skills must be included to separate the 2 passes. Stepping out of a flip is considered a continuation of the same tumbling pass. An athlete must take an additional step out of a flip step out. However, if the athlete(s) finishes the skill with both feet together, then 1 step is all that is needed to create a new tumbling pass.
- C. No twisting is allowed while airborne.
Exception: Round offs are allowed.
Exception: Aerial cartwheels are allowed.

MEDIAN DIVISION – STUNTS

- A. A spotter is required for each top person above prep level.
- B. Single leg extended stunts are allowed.
- C. Twisting stunts and transitions are allowed up to 1 twisting rotation by the top person in relation to the performance surface.
Clarification: A twist performed with an additional turn by the bases performed in the same skill set, is not allowed if the resulting cumulative rotation of the top person exceeds a 1 rotation. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e., prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.
- D. Full twisting transitions must land at and original from prep level or below only.
Example: No full ups (1 twist or more) to an extended position.
- E. Twisting transitions to and from an extended position may not exceed a $\frac{1}{2}$ twisting rotation.
Clarification: A twist performed with an additional turn by the bases performed in the same level set, would be not allowed if the resulting cumulative rotation of the top person exceeds $\frac{1}{2}$ rotation.
- F. During stunts and transitions, at least 1 base must remain in contact with the top person.
Exception: See “Release Moves”.
- G. Free flipping stunts and transitions are not allowed.
- H. No stunt, pyramid or individual may move over or under another separate stunt, pyramid or individual.
Clarification 1: This rule pertains to an athlete’s torso (midsection of an athlete’s body) not moving over or under the torso of another athlete; this does not pertain to an athlete’s arms or legs.
Clarification 2: A top person may not pass over or under the torso (midsection of an athlete’s body) of another top person regardless of whether the stunt or pyramid is separate or not.
Example: A shoulder sit walking under a prep is not allowed.
Exception: An individual may jump over another individual.
- I. Single based split catches are not allowed.
- J. Single based stunts with multiple top persons require a separate spotter for each top person.
- K. Extended single leg top persons may not connect to any other extended top person.
- L. **MEDIAN DIVISION Stunts-Release Moves**
1. Release moves are allowed but must not exceed extended arm level.
Clarification: If the release move passes above the bases’ extended arm level, it will be considered a toss and/or dismount and must follow the appropriate “Toss” and/or “Dismount” rules. To determine the height of a release move, at the highest point of the release, the distance from the hips to the extended arms of the bases will be used to determine the height of the release. If that distance is greater than the length of the top person’s legs, it will be considered a toss or dismount and must follow the appropriate “Toss” or “Dismount” rules.

2. Release moves may not land in an inverted position. Releasing from an inverted to non-inverted position is not allowed.
3. Release moves must start at waist level or below and must be caught at prep level or below.
4. Release skills that land in a non-upright position must have 3 catchers for a multi-based stunt and 2 catchers for a single based stunt.
5. Release moves are restricted to 1 skill/trick and 0 twists. Only skills performed during the release attribute to the 1 skill/trick and 0 twists limitation. Therefore, placement to an immediate body position would not be considered a skill.
Exception: Log/barrel rolls may twist up to 1 rotation and must land in a cradle or a flat and horizontal body position. (i.e., Flat back or prone position)
Clarification: Single based log rolls must have 2 catchers. Multi-based log rolls must have 3 catchers.
6. Release moves must return to original bases, unless the original base(s) are not physically capable of catching the release move as designated.
Clarification: An individual may not land on the performing surface without assistance.
Exception 1: See Median Division Dismount "C".
Exception 2: Dismounting single based stunts with multiple top persons.
7. Helicopters are not allowed.
8. Release moves may not intentionally travel.
9. Release moves may not pass over, under or through other stunts, pyramids, or individuals.
10. Top persons in separate release moves may not come in contact with each other.
Exception: Dismounting single based stunts with multiple top persons.

M. **MEDIAN DIVISION Stunts-Inversions**

1. No inverted stunts above shoulder level are allowed. The connection and support of the top person with the base(s) must be at shoulder level or below.
Exception: Multi-based suspended rolls to a cradle, load in position, flat body prep level stunt or to the performance surface are allowed. Multi-based suspended rolls must be supported by 2 hands. Both hands of the top person must be connected to a separate hand of the base(s).
2. Inversions are limited to a ½ twisting rotation to extended level and 1 twisting rotation to prep level and below.
Exception (a): A multi-based suspended forward roll may twist up to 1 full twisting rotation (See #1 Exception above). A Forward Suspended Roll exceeding a ½ twist must land in a cradle.
Exception (b): In a multi-based suspending backward roll, the top person may not twist.
3. Downward inversions are allowed at waist level and must be assisted by at least 2 bases/catchers positioned at the waist to shoulder level to protect the head and shoulder area. The top person must maintain contact with the original base.
Clarification 1: The stunt may not pass through prep level and then become inverted below prep level or below. (The momentum of the top person coming down is the primary safety concern.)
Clarification 2: Catchers must make contact with the waist to shoulder region to protect the head and shoulder area of the top person.
Clarification 3: Two-leg Pancake stunts are not allowed in the Median Division.
4. Downward inversions may not come into contact with each other.
5. Bases may not support any weight of a top person while that base is in a backbend or inverted position.
Clarification: A person standing on the ground is not considered a top person.

MEDIAN DIVISION PYRAMIDS

- A. Pyramids must follow Median Division "Stunts" and "Dismounts" rules and are allowed up to 2 high.
- B. Top persons must receive primary support from a base.
Exception: See Median "Pyramid Release Moves"
- C. Extended single leg (1 leg) stunts may not brace or be braced by any other extended stunts.
- D. No stunt, pyramid or individual may move over or under another separate stunt, pyramid, or individual.
Clarification: A top person may not pass over or under the torso (midsection of an athlete's body) of another top person regardless if the stunt or pyramid is separate or not.
Example: A shoulder sit walking under a prep is not allowed.

- E. Twisting stunts and transitions to extended skills are allowed up to 1 twist if connected to at least 1 bracer at prep level or below and at least 1 base. The connection to the bracer must be hand/arm to hand/arm. The connection must be made prior to the initiating of the skill and must remain in contact throughout the skill. A Hand/arm connection does not include the shoulder.
- F. **MEDIAN DIVISION PYRAMIDS - Release Moves**
1. Any skill allowed as a Median Division Release Move is also allowed if it remains connected to a base and 2 bracers.
 2. Anytime a top person is released by the bases during a pyramid transition and does not adhere to the following rules, the top person must land in a cradle or dismount to the performance surface and must follow the Median Division dismount rules.
 3. During a pyramid transition, a top person may pass above 2 persons high while in direct physical contact with at least 2 persons at prep level or below. Contact must be maintained with the same bracer(s) throughout the entire transition.
Clarification 1: Twisting stunts and transitions are allowed up to 1 twist, if connected to at least 2 bracers at prep level or below with an arm/arm connection. The connections must be made prior to the initiation of the skill and must remain in contact throughout the skill.
Clarification 2: Median Division Pyramid Release Moves may incorporate stunt release moves that maintain contact with 1 other top person provided the release move meets the Median Division "Stunt Release Moves" or "Dismounts" criteria.
 4. The top person must remain in direct contact with at least 2 different top persons at prep level or below. One of these top person contacts must be in a hand/arm-to-hand/arm connection; the other may be either in a hand/arm-to-hand/are connections or in a hand/arm-to-foot/lower leg (below the knee) connection.
Clarification 1: Pyramid Release Moves must be braced on 2 different sides (e.g., right side/left side or left side/back side, etc.) by 2 separate bracers. (Example: 2 bracers on the same arm are not allowed.) A top person must be braced on 2 of the 4 sides (front, back, right, or left) of her/his body.
Clarification 2: Contact must be made with a base on the performance surface BEFORE the contact with the bracer(s) is lost.
 5. Primary weight may not be borne at the 2nd level.
Clarification: The transition must be continuous.
 6. These release transitions may not involve changes bases.
 7. These transitions must be caught by at least 2 catchers (minimum of 1 catcher and 1 spotter) under the following conditions:
 - a. Both catchers must be stationary.
 - b. Both catchers must maintain visual contact with the top person throughout the entire transition.
 8. Release moves may not be braced/connected to the top person(s) above prep level.
- G. **MEDIAN DIVISION Pyramids-Inversions**
1. Must follow Median Division "Stunt Inversions" rules.
 2. A top person may pass through an inverted position during a pyramid position IF the top person remains in contact with a base(s) that is in direct weight bearing contact with the performance surface and also a bracer at prep level or below. The top person must remain in contact with both the bracer and the base throughout the transition. The base(s) that remains in contact with the top person may extend their arms during the transition if the skill(s) starts and ends in a position at prep level or below.
Example 1: A flat back split that rolls to a load in position is allowed even if the base(s) extends their arms during the inversion skill.
Example 2: A flat back that rolls into an extended position is not allowed because the skill did not first land in a position below the extended level.
- H. **MEDIAN DIVISION Pyramids-Release Moves w/ braced inversions**
1. Pyramid transitions may not involve inversions while released from the bases.

MEDIAN DIVISION - DISMOUNTS

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

- A. Cradles from single based stunts must have a spotter with at least 1 hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- B. Cradles from multi-based stunts must have 2 catchers and a spotter with at least 1 hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- C. Dismounts must return to the original base(s).
Exception 1: Dismounts to the performance surface must be assisted by either an original base(s) and/or a spotter(s).
Exception 2: Straight drops or small hop offs, with no additional skill(s), from the waist level or below are the only dismounts allowed to the performing surface without assistance.
Clarification: An individual may not land on the performing surface from above waist level without assistance.
- D. Only straight pop downs, basic straight cradles, and $\frac{1}{4}$ turns are allowed from any single (1 leg) stunt.
- E. Up to a 1 $\frac{1}{4}$ twisting rotations are allowed from all 2 - leg stunts.
Clarification: Twisting from a platform is not allowed. A Platform is not considered a 2-leg stunt. There are specific exceptions given for the platform body position within the Median Division "Stunts" regarding Twisting Stunts and Transitions specifically.
- F. No stunt, pyramid, individual, or prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or props.
Exception: If the "prop" is a mobile device of an Adaptive Abilities athlete, then it is allowed.
- G. Up to 1 trick is allowed during a dismount from any 2-leg stunt.
- H. Any dismount from prep level and above involving a skill/trick (i.e., twist, toe touch) must be caught in a cradle.
- I. No free flipping dismounts allowed.
- J. Dismounts may not intentionally travel.
- K. Top persons in dismounts may not come in contact with each other while released from the bases.
- L. Tension drops/rolls of any kind are not allowed.
- M. When cradling single based stunts with multiple top persons, 2 catchers must catch each top person. Catchers and bases must be stationary prior to the initiation of dismount.
- N. Dismounts from an inverted position are not allowed.

MEDIAN DIVISION - TOSSES

- A. Tosses are allowed up to a total of 4 tossing bases. One base must be behind the top person during the toss and may assist the top person into the toss.
- B. Tosses must be performed with all bases having their feet on the performing surface and must land in a cradle position. Top person must be caught in a cradle position by at least 3 original bases one of which is positioned at the head and shoulder area of the top person. Bases must remain stationary during the toss.
Example: no intentional traveling tosses.
- C. The top person in a toss must have both feet in/on the hands of the bases when the toss is initiated.
- D. Flipping, inverted, or traveling tosses are not allowed.
- E. No stunt, pyramid, individual, or prop may move over or under a toss, and a toss may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- F. Up to 1 trick allowed during a toss. Twisting tosses may not exceed 1 twisting rotation.
Example 1: Legal: toe-touch, ball out, pretty girl.
Example 2: Illegal: Switch kick, pretty girl-kick, double toe-touch
Clarification: The 'arch' does not count as a trick.
Exception: A Ball X toss is allowed at this level as an "EXCEPTION".
- G. During a twisting toss, no skill other than the twist is allowed.
Example: No kick fulls, No $\frac{1}{2}$ twist toe touches.
- H. Top persons in separate tosses may not come in contact with each other.
- I. Only a single top person is allowed during a toss.

ICU ADVANCED DIVISION RULES **(YOUTH & JUNIOR ADVANCED DIVISIONS)**

ADVANCED DIVISION - GENERAL TUMBLING

- A. All tumbling must originate from and land on the performance surface.
Clarification: A tumbler may rebound from his/her feet into a transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.
Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.
- B. Tumbling over, under, or through a stunt, individual, or prop, is not allowed.
Clarification: An individual may jump over another individual.
- G. Tumbling while holding or in contact with any prop is not allowed, unless the "prop" is mobility equipment for an Adaptive Abilities athlete.
Exception: As is common with Cheerleaders at sporting events, an athlete, already proficient in a standing single back tuck flip skill, may perform a standing single back tuck flip with poms only in the athlete's hands during the Cheer portion of the routine.
- H. Dive rolls are allowed:
Exception 1: Dive rolls performed in a swan/arched position are not allowed.
Exception 2: Dive rolls that involve twisting are not allowed.
- I. Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump skill is included in a tumbling pass, the jump will break up the pass.
Example: If an athlete in Advanced performs a roundoff - toe touch - back handspring - whip-layout, this combination of skills would not be allowed since consecutive flip-flip combinations are not allowed within the Advanced Standing Tumbling regulations.

ADVANCED DIVISION - STANDING TUMBLING

- A. Standing flips and flips from a back handspring entry are allowed.
- B. Skills are allowed up to 1 flipping and 0 twisting rotations.
Exception: Aerial cartwheels and Onodis are allowed.
- C. Consecutive flip-flip combinations are not allowed.
Example: Back tuck – back tuck, back tuck – punch front is not allowed.
- D. Jump skills are not allowed in immediate combination with a standing flip.
Example: Toe touch back tucks, back tuck toe touches, pike jump front flips are not allowed.
Clarification 1: Jumps connected to $\frac{3}{4}$ front flips are not allowed.
Clarification 2: Toe touch back handspring back tucks are allowed because the flip skill is not connected immediately after the jump skill.

ADVANCED DIVISION - RUNNING TUMBLING

- A. Skills are allowed up to 1 flipping and 0 twisting rotations.
Exception: Aerial cartwheels and Onodis are allowed.

ADVANCED DIVISION - STUNTS

- A. A spotter is required for each top above prep level.
- B. Single leg extended stunts are allowed.
- C. Twisting stunts and transitions to prep level are allowed up to 1 $\frac{1}{2}$ twisting rotations by the top person in relation to the performing surface.
Clarification: A twist performed with an additional turn by the bases performed in the same skill set, is not allowed if the resulting cumulative rotation of the top person exceeds 1 $\frac{1}{2}$ rotations. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e., prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation

- D. Twisting stunts and transitions to an extended position are allowed under the following conditions:
1. Extended skills up to a $\frac{1}{2}$ twist are allowed.
 Example: A $\frac{1}{2}$ up to extended single leg stunt is allowed.
Clarification: Any additional turn performed by the bases in the same skill set would not be allowed if the resulting cumulative rotation of the top person exceeds $\frac{1}{2}$ rotation. The safety judges will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once the stunt is hit (i.e., a prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.
 2. Extended skills exceeding a $\frac{1}{2}$ twist but not exceeding 1 twist must land in a 2 -leg stunt, platform position or a liberty (body position variations are not allowed).
 Example: A full up (1 twist) to an immediate extended heel stretch is not allowed, but a full up (1 twist) to an extension is allowed.
Clarification 1: An extended platform position must be visibly held prior to executing a single leg stunt other than a liberty.
Clarification 2: Any additional turn performed by the bases in the same skill set would not be allowed if the resulting cumulative rotation of the top person exceeds 1 rotation. The safety judges will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once the stunt is hit (i.e., a prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.
- E. During transitions, at least 1 base must remain in contact with the top person.
 Exception: See “Release Moves”.
- F. Free flipping mounts and transitions are not allowed.
- G. No stunt, pyramid or individual may move over or under another separate stunt, pyramid or individual.
Clarification: This rule pertains to an athlete’s torso (midsection of an athlete’s body) not moving over or under the torso of another athlete; this does not pertain to an athlete’s arms or legs.
 Example: A shoulder sit walking under a prep is not allowed.
 Exception 1: An individual may jump over another individual.
 Exception 2: An individual may move under a stunt, or a stunt may move over an individual.
- H. Single based split catches are not allowed.
- I. Single based stunts with multiple top persons require a separate spotter for each top person.
- J. Extended single top persons may not connect to any other extended single leg top person.
- K. **ADVANCED DIVISION Stunts-Release Moves**
1. Release moves are allowed but must not exceed extended arm level.
Clarification: If the release move passes above the bases’ extended arm level, it will be considered a toss and/or dismount and must follow the appropriate “Toss” and/or “Dismount” rules. To determine the height of a release move, at the highest point of the release, the distance from the hips to the extended arms of the bases will be used to determine the height of the release. If that distance is greater than the length of the top person’s legs, it will be considered a toss or dismount and must follow the appropriate “Toss” or “Dismount” rules.
 2. Release moves may not land in an inverted position. When performing a release move from an inverted position to a non-inverted position, the bottom of the dip will be used to determine if the initial position was inverted. Release moves from inverted to non-inverted positions may not twist. Release moves from inverted to non-inverted positions landing at prep level or higher must have a spot.
 3. Release skills that land in a non-upright position must have 3 catchers for a multi-based stunt and 2 catchers for a single based stunt.
 4. Release moves must return to original bases.
Clarification: An individual may not land on the performing surface without assistance. Exception 1: See Advanced Division Dismount “C”.
 Exception 2: Dismounting single based stunts with multiple top persons.
 5. Release moves that land in an extended position must originate from waist level or below and may not involve twisting or flipping.
 6. Release moves initiating from an extended level may not twist.
 7. Helicopters are allowed up to a 180-degree rotation and 0 twisting and must be caught by at least 3 catchers, one of which is positioned at head and shoulder area of the top person.

8. Release moves may not intentionally travel.
9. Release moves may not pass over, under or through other stunts, pyramids, or individuals.
10. Top persons in separate release moves may not come in contact with each other.
Exception: Dismounting single based stunts with multiple top persons.

L. ADVANCED DIVISION Stunts-Inversions

1. Extended inverted stunts are allowed. Also, see "Stunts" and "Pyramids."
2. Downward inversions are allowed at prep level and must be assisted by at least 3 catchers, at least 2 of which are positioned to protect the head and shoulder area.
Exception: A controlled lowering of an extended inverted stunt (example: handstand) to shoulder level is allowed.
Clarification 1: The stunt may not pass above prep level and then become inverted at prep level or below. (The momentum of the top person coming down is the primary safety concern.)
Clarification 2: Catchers must make contact with the waist to shoulder region to protect the head and shoulder area of the top person. Clarification 3: Downward inversions originating from below prep level do not require three (3) bases.
Exception: Two-leg "Pancake" stunts must start at shoulder level or below and are allowed to immediately pass through the extended position during the skill.
Clarification 4: Two-leg Pancakes cannot stop or land in an inverted position.
3. Downward inversions must maintain contact with an original base.
Exception: Side rotating downward inversions.
Example: In cartwheel-style transitions, the original base may lose contact with the top person when it becomes necessary to do so.
4. Downward inversions may not come into contact with each other.

- M. Bases may not support any weight of a top person while that base is in a backbend or inverted position.
Clarification: A person standing on the ground is not considered a top person.

ADVANCED DIVISION - PYRAMIDS

- A. Pyramids must follow Advanced Division "Stunts" and "Dismounts" rules and are allowed up to 2 high.
Exception: Twisting mounts and transitions to extended skills are allowed up to 1 ½ twists if connected to a bracer at prep level or below. The connection must be made prior to the initiation of the skill and must remain in contact throughout the transition.
- B. Top persons must receive primary support from a base.
Exception: See "Advanced Pyramid Release Moves"
- C. Extended single leg (1 leg) stunts may not brace or be braced by any other single leg (1 leg) extended stunts.
- D. No stunt or pyramid may move over or under another separate stunt or pyramid.
Clarification: A top person may not invert over or under the torso (midsection of an athlete's body) of another top person regardless if the stunt or pyramid is separate or not.
Example: A shoulder sit walking under a prep is not allowed.
Exception 1: An individual may jump over another individual.
Exception 2: An individual may move under a stunt, or a stunt may move over an individual.
- E. Any skill that is allowed as an Advanced Division Release Move is also allowed if it remains connected to a base and a bracer (or 2 bracers when required).
Example: An extended Pancake would be required to remain connected to 2 bracers.
- F. **ADVANCED DIVISION PYRAMIDS - Release Moves**
 1. During a pyramid transition, a top person may pass above 2 persons high while in direct physical contact with at least 1 person at prep level or below. Contact must be maintained with the same bracer(s) throughout the entire transition.
Clarification 1: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.
Exception: While a tick-tock from prep level or higher to an extended position (e.g., low to high and high to high) is not allowed for Advanced Division "Stunts", the same skill is allowed in Advanced Division "Pyramid Release Moves" if the skill is braced by at least 1 person at prep level or below. The top person performing the tick-tock must be braced the entire time during the release from the bases.

Clarification 2: Advanced Division Pyramid Release Moves may incorporate stunt release moves that maintain contact with 1 other top person provided the release move meets the Advanced Division "Stunt Release Moves" or "Dismounts" criteria.

Clarification 3: Twisting stunts and transitions are allowed up to 1 ½ twists if connected to at least 1 bracer at prep level or below.

2. In a pyramid transition, a top person may travel over another top person while connected to that top person at prep level or below.

3. Primary weight may not be borne at the 2nd level.

Clarification: The transition must be continuous.

4. Non-inverted transitional pyramids may involve changing bases under the following conditions:

a. The top person must maintain physical contact with a person at prep level or below.

Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.

b. The top person must be caught by at least 2 catchers (minimum of 1 catcher and 1 spotter). Both catchers must be stationary and may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill).

5. Non-inverted pyramid release moves must be caught by at least 2 catchers (minimum of 1 catcher and 1 spotter) under the following conditions:

a. Both catchers must be stationary.

b. Both catchers must maintain visual contact with the top person throughout the entire transition.

6. Release moves may not be braced / connected to the top persons above prep level.

G. ADVANCED DIVISION PYRAMIDS – Inversions

1. Must follow Advanced Division Stunt Inversions rules.

H. ADVANCED DIVISION PYRAMIDS - Release Moves w/braced inversions

1. Pyramid transitions may involve braced inversions (including braced flips) while released from the bases if contact is maintained with at least 2 persons at prep level or below. Contact must be maintained with the same bracer throughout entire transition.

Clarification 1: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.

Clarification 2: Braced flips must be braced on 2 separate sides (i.e., right side - left side, left side- back side, etc.) by 2 separate bracers. (Example: Two bracers on the same arm will no longer be permitted). A top person must be braced on 2 of the 4 sides (front, back, right, or left) of their body.

2. Braced inversions (including braced flips) are allowed up to 1 ¼ flipping rotations and 0 twisting rotations.

3. Braced inversions (including braced flips) may not involve changing bases.

4. Braced inversions (including braced flips) must be in continuous movement.

5. All braced inversions (including braced flips) that do not twist must be caught by at least 3 catchers.

Exception: Brace flips that land in an upright position at prep level or above require a minimum of 1 catcher and 2 spotters.

a. All required catchers/spotters must be stationary.

b. All required catchers/spotters must maintain visual contact with the top person throughout the entire transition.

c. The required catchers/spotters may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)

6. Braced inversions (including braced flips) may not travel downward while inverted.

7. Braced inversions (including braced flips) may not come in contact with other stunt/pyramid release moves.

8. Braced inversions (including braced flips) may not be braced/connected to top persons above prep level.

ADVANCED DIVISION – DISMOUNTS

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

A. Cradles from single based stunts must have a spotter with at least 1 hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.

- B. Cradles from multi-based stunts must have 2 catchers and a spotter with at least 1 hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- C. Dismounts must return to the original base(s).
Exception 1: Dismounts to the performance surface must be assisted by either an original base(s) and/or spotter(s).
Exception 2: Straight drops or small hop offs, with no additional skill(s), from the waist level or below are the only dismounts allowed to the performing surface without assistance.
Clarification: An individual may not land on the performing surface from above waist level without assistance.
- D. Up to a 2 ¼ twisting rotations are allowed from all 2- leg stunts.
Clarification: Twisting from a platform position may not exceed 1 ¼ rotations. A Platform is not considered a 2 - leg stunt. There are specific exceptions given for the platform body position within the Advanced Division "Stunts" regarding Twisting Stunts and Transitions specifically.
- E. Up to a 1 ¼ twisting rotations are allowed from all single leg (1 leg) stunts.
Clarification: A Platform is not considered a 2 - leg stunt. There are specific exceptions given for the platform body position within the Advanced Division "Stunts" regarding Twisting Stunts and Transitions specifically.
- F. No stunt, pyramid, individual, or, prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or prop.
- G. During a cradle that exceeds 1 ¼ twists, no skill other than the twist is allowed.

- K. Tension drops/rolls of any kind are not allowed.
- L. When cradling single based stunts with multiple top persons, 2 catchers must catch each top person. Catchers and bases must be stationary prior to the initiation of dismount.
- M. Dismounts from an inverted position may not twist.

ADVANCED DIVISION - TOSSES

- A. Tosses are allowed up to a total of 4 tossing bases. One (1) base must be behind the top person during the toss and may assist the top person into the toss.
- B. Tosses must be performed with all bases having their feet on the performing surface and must land in a cradle position. Top person must be caught in a cradle position by at least 3 original bases one of which is positioned at the head and shoulder area of the top person. Bases must remain stationary during the toss.
Example: No intentional traveling tosses.
Exception: A ½ turn is allowed by bases as in a kick full basket.

- J. Only a single top person is allowed during a toss.

ICU ELITE DIVISION RULES **(JUNIOR & SENIOR ELITE DIVISIONS)**

ELITE DIVISION - GENERAL TUMBLING

- A. All tumbling must originate from and land on the performance surface.

Clarification: A tumbler may rebound from his/her feet into a transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.

Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.

- B. Tumbling over, under, or through a stunt, individual, or prop, is not allowed.

Clarification: An individual may jump over another individual.

- C. Tumbling while holding or in contact with any prop is not allowed.

Exception: As is common with Cheerleaders at sporting events, an athlete, already proficient in a standing single back tuck flip skill, may perform a standing single back tuck flip with poms only in the athlete's hands during the Cheer portion of the routine.

- D. Dive rolls are allowed:

Exception: Dive rolls that involve twisting are not allowed.

- E. Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump skill is included in a tumbling pass, the jump will break up the pass.

ELITE DIVISION - STANDING TUMBLING

- A. Skills are allowed up to 1 flipping and 1 twisting rotation.

ELITE DIVISION - RUNNING TUMBLING

- A. Skills are allowed up to 1 flipping and 1 twisting rotation.

ELITE DIVISION - STUNTS

- A. A spotter is required for each top above prep level.

- B. Single leg extended stunts are allowed.

- C. Twisting stunts and transitions are allowed up to 2 ¼ twisting rotations by the top person in relation to the performance surface.

Clarification: A twist performed with an additional turn by the bases performed in the same skill set, would be illegal if the resulting cumulative rotation of the top person exceeds 2 ¼ rotations. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e., prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.

- D. Free flipping stunts and transitions are not allowed.

- E. Single based split catches are not allowed.

- F. Single based stunts with multiple top persons require a separate spotter for each top person.

- G. **ELITE DIVISION Stunts-Release Moves**

1. Release moves are allowed but must not exceed more than 18 inches/46 centimeters above extended arm level.

Clarification: If the release move exceeds more than 18 inches/46 centimeters above the bases' extended arm level, it will be considered a toss, and must follow the appropriate "Toss" rules. To determine the height of a release move, at the highest point of the release, the distance from the hips to the extended arms of the bases will be used to determine the height of the release. If that distance is greater than the length of the top person's legs plus an additional 18 inches/46 centimeters, it will be considered a toss or dismount and must follow the appropriate "Toss" or "Dismount" rules.

2. Release moves may not land in an inverted position. When performing a release move from an inverted position to a non-inverted position, the bottom of the dip will be used to determine if the initial position was inverted. Release moves from inverted to non-inverted positions may not twist.

Exception: Front handspring up to an extended stunt may include up to a 1/2 twist. Release moves from inverted to non-inverted positions landing at prep level or higher must have a spot.

3. Release skills that land in a non-upright position must have 3 catches for a multi-based stunt and 2 catchers for a single based stunt.

4. Release moves must return to original bases. *Clarification: An individual may not land on the performance surface without assistance.*
Exception 1: See Elite Division Dismount "C".
Exception 2: Dismounting single based stunts with multiple top persons.
5. Helicopters are allowed up to a 180-degree rotation and must be caught by at least 3 catchers, one (1) of which is positioned at head and shoulder area of the top person.
6. Release moves may not intentionally travel.
7. Release moves may not pass over, under or through other stunts, pyramids, or individuals.
8. Top persons in separate release moves may not come in contact with each other.
Exception: Dismounting single based stunts with multiple top persons.

H. **ELITE DIVISION Stunts-Inversions**

1. Extended inverted stunts are allowed. Also, see "Stunts" and "Pyramids."
 2. Downward inversions are allowed from prep level and above and must be assisted by at least 3 catchers, at least 2 of which are positioned to protect the head and shoulder area. Contact must be initiated at the shoulder level (or above) of the bases.
Clarification 1: Catchers must make contact with the waist to shoulder region to protect the head and shoulder area.
Clarification 2: Downward inversion originating from prep level or below do not require 3 catchers. If the stunt begins at prep level or below and passes above prep level it requires 3 catchers. (The momentum of the top person coming down is the primary safety concern.)
Exception: A controlled lowering of an extended inverted stunt (example: Handstand) to shoulder level is allowed.
 3. Downward inversions must maintain contact with an original base.
Exception: The original base may lose contact with the top person when it becomes necessary to do so. Example: Cartwheel-style transition dismounts.
 4. Downward inversions from above prep level:
 - a. May not stop in an inverted position.
Example: A cartwheel roll off would be legal because the top person is landing on their feet.
Exception: A controlled lowering of an extended inverted stunt (example: handstand) to shoulder level is allowed.
 - b. May not land on or touch the ground while inverted.
Clarification: Prone or supine landings from an extended stunt must visibly stop in a non-inverted position and be held before any inversion to the ground.
 5. Downward inversions may not come in contact with each other.
- I. Bases may not support any weight of a top person while that base is in a backbend or inverted position.
Clarification: A person standing on the ground is not considered a top person.

ELITE DIVISION - PYRAMIDS

- A. Pyramids must follow Elite Division "Stunts" and "Dismounts" rules and are allowed up to 2 high.
- B. Top persons must receive primary support from a base.
Exception: See Elite Division "Pyramids Release Moves".
- C. **ELITE DIVISION Pyramids- Release Moves**
 1. During a pyramid transition, a top person may pass above 2 persons high while in direct physical contact with at least 1 person at prep level or below. Contact must be maintained with the same bracer throughout the entire transition.
Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.
 2. Primary weight may not be borne at the 2nd level.
Clarification: The transition must be continuous.
 3. Non-inverted pyramid release moves must be caught by at least 2 catchers (minimum of 1 catcher and 1 spotter) under the following conditions:
 - a. Both catchers must be stationary.
 - b. Both catchers must maintain visual contact with the top person throughout the entire transition.
 4. Non inverted transitional pyramids may involve changing bases. When changing bases:

- a. The top person must maintain physical contact with a person at prep level or below.
Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.
 - b. The top person must be caught by at least 2 catchers (minimum of 1 catcher and 1 spotter). Both catchers must be stationary and may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)
5. Release moves may not be braced / connected to the top persons above prep level.

D. ELITE DIVISION Pyramids-Inversions

- 1. Must follow Elite Division "Stunt Inversions" rules.

E. ELITE DIVISION Pyramids-Release moves w/ braced inversions

- 1. Pyramid transitions may involve braced inversions (including braced flips) while released from the bases if contact is maintained with at least 1 person at prep level or below. Contact must be maintained with the same bracer throughout entire transition. *Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.*
- 2. Braced inversions (including braced flips) are allowed up to 1 ¼ flipping rotations and ½ twisting rotations.
- 3. Braced inversions (including braced flips) that exceed ½ twisting rotations are only allowed up to a ¾ flipping rotation provided release is initiated from an upright, non-inverted position, doesn't transition past a horizontal position (i.e., cradle, flat back, prone) and doesn't exceed 1 twisting rotation.
Clarification: ALLOWED - An athlete tossed from an upright, non-inverted position (i.e., basket toss or sponge) performing a full twist and a backward ¾ rotation to a prone position while in contact with 1 bracer.
- 4. Inverted transitional pyramids may involve changing bases.
- 5. Braced inversions (including braced flips) must be in continuous movement.
- 6. All braced inversions (including braced flips) that do not twist must be caught by at least 3 catchers. Exception: Brace flips that land in an upright position at prep level or above require a minimum of 1 catcher and 2 spotters.

 - b. The 3 catchers/spotters must maintain visual contact with the top person throughout the entire transition.
 - c. The 3 catchers/spotters may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)
- 7. All braced inversions (including braced flips) that twist (including ¼ twist or more) must be caught by at least 3 catchers. All 3 catchers must make contact during the catch.
 - a. The catchers must be stationary.
 - b. The catchers must maintain visual contact with the top person throughout the entire transition.
 - c. The catchers may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)
- 8. Braced inversions (including braced flips) may not travel downward while inverted.
- 9. Braced flips may not come in contact with other stunt/pyramid release moves.
- 10. Braced inversions (including braced flips) may not be braced/connected to top persons above prep level.

- C. Twisting stunts and transitions are allowed up to 2 ¼ twisting rotations by the top person in relation to the performance surface.
Clarification: A twist performed with an additional turn by the bases performed in the same skill set, would be illegal if the resulting cumulative rotation of the top person exceeds 2 ¼ rotations. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e., prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.
- D. Rewinds (Free flipping) and assisted flipping stunts and transitions are allowed. Rewinds must originate from ground level only and are allowed up to 1 flipping and 1 ¼ twisting rotations.
