XII. JUDGING PANELS

1. Head Judge: The Head Judge is responsible for overseeing the entire Judging Panel that consists of Panel Judges, Point Deduction Judge, and Safety Judge.

2. Panel Judge: Panel Judges are responsible for scoring each team's performance based on the WSCC score sheets. Each Panel Judge will complete a score sheet in reflection of each team performance.
3. Point Deduction Judge: The Point Deduction Judge is responsible for assessing deductions in each routine for athlete(s), stunt(s), and pyramid fall(s), drop(s) or collapse. Please review the "Point Deduction explanation sheet at www.cheerunion.org
4. Safety Judge: The Safety Judge is responsible for administering all safety violations, time violations, and boundary violations.
5. All judges' decisions are final.

XIII. SAFETY RULES

A. GLOSSARY

Base: A person who is in direct contact with the performing surface and is supporting another person's weight.

Basket Toss: A stunt in which a top person is tossed by bases whose hands are interlocked.

Bracer: A top person who is connected to another top person.

Braced Flip/Roll: A pyramid in which a top person performs a hip-over-head rotation while in contact with bracers.

Cradle: Dismount from a partner stunt, pyramid or toss in which the catch is completed below shoulder height by a base or bases with the top person in a cradle position.

Cradle Position: A face-up open-pike position.

Cupie/Awesome: A stunt in which both feet of the top person are in one hand of a base.

Dive Roll: A forward roll where the feet leave the performance surface before the hands make contact with the performance surface.

Downward Inversion: A stunt or pyramid in which an inverted top person's center of gravity moves toward the performance surface.

Drop: Landing on the performance surface from an airborne position.

Elevator/Sponge Toss: A stunt in which the top person loads into an elevator/sponge loading position and is then tossed into the air.

Extended Stunt: A stunt in which the entire body of the top person is extended in an upright position over the base(s). Chairs, torches, flatbacks and straddle lifts are examples of stunts where the bases' arms are extended overhead, but are NOT considered to be extended stunts since the height of the body of the top person is similar to a shoulder level stunt.

Flatback: A stunt in which the top person is held face up or face down, in a horizontal position, with their hips and shoulders in alignment.

Foldover Stunt: An inverted stunt in which the top person bends at the waist and is caught on his/her back by multiple catchers while one or both of the top person's ankles/feet remain in the grip of the base(s) (e.g. yo-yo, pancake, etc.).

Hanging Pyramid: A pyramid in which the top person's weight is primarily supported by another top person. Examples of hanging pyramids are: a person being suspended between two shoulder stands; a "whirlybird" stunt where one person's weight is being supported by the legs of a top person in a shoulder sit; and a "diamond head" stunt where two persons are suspended from one shoulder stand.

Helicopter: A stunt in which the top person is tossed into the air in a horizontal position and rotates parallel to the ground in the same motion as a helicopter blade.

Inverted: A body position where the shoulders are below the waist.

Loading position: Bases support a non-extended top person under the foot/feet in preparation for a stunt or toss.

Log Roll: A top person in a horizontal position or cradle that is popped then twists parallel to the performance surface before being caught by the original base(s) in a horizontal position or a cradle.

Pyramid: Connected partner stunts.

Post: A person on the performance surface who may assist a top person during a stunt or transition.

Prep: A stunt in which one or more bases hold a standing top person at approximately shoulder height.

Prep Level: A level where the top person's base of support is at approximately shoulder height.

Prop: Any object(s) which can be manipulated or used as a tool to enhance crowd-leading during a Cheer performance. (e.g. poms, signs, flags, megaphones, etc.)

Quick Toss/Partner Toss: A toss technique where the top person begins the toss with **at least one foot** on the ground.

Released Pyramid Transition: A pyramid transition in which the top person is connected to a bracer while being released from their bases before being caught in a cradle, stunt or loading position.

Release Stunt: A transition from one stunt to another stunt (including loading positions) in which the top person becomes free from all bases, posts and spotters.

Spotter: A person who is responsible for assisting or catching the top person in a partner stunt or pyramid.

Stunt/Partner Stunt: One or more persons supporting one or more persons in a skill off of the performance surface.

Switch Liberty: A stunt in which the top person begins with one foot on the performance surface, is released from the bases, and then lands in a stunt on the other foot.

Suspended Roll: A stunt in which one or more upright bases or posts hold the top person's hand(s)/arm(s) while the top person performs continuous hip-over-head rotation.

Tension Drop: A dismount from a stunt or pyramid where the top person(s) are directed toward the ground while their feet are held by the bases until just before landing.

Tick-Tock: A stunt that is held in a static position on one leg, the base(s) takes a downward dip and release the top person as the top person switches the weight to the other leg and lands in a static position on the opposite leg. The dip may or may not pass through prep level before release.

Top Person: A person who is not in contact with the performance surface and is being supported or stabilized by another person or has been tossed into the air.

Toss: A release stunt in which the base(s) begin underneath the top person's foot/feet, execute a throwing motion from below shoulder level to increase the height of the top person, and the top person becomes free from all bases, spotter posts or bracers. Note: This term applies when at least one base is under one or both feet of the top person. For other types of tosses, see "Quick Toss/Partner Toss".

Tumbling: Gymnastic skills that begin and end on the performance surface, including rolls, inverted extended skills (e.g. cartwheels, handstands, walkovers, handsprings, etc.), aerials, twists and flips. Note: Jump, leaps and side rolls on the performance surface are not considered to be tumbling.

B. GENERAL PROGRAM GUIDELINES

1. These rules are to be in effect for all practices, games, competitions and other performances.
2. Cheerleading squads/teams should be placed under the direction of a qualified and knowledgeable coach.
3. All practice sessions should be supervised by the coach and held in a location suitable for the activities of cheerleaders (e.g. use of appropriate matting, away from excessive noise and distractions, etc.)
4. Coaches should recognize a team's particular ability level and should limit the team's activities accordingly. "Ability level" refers to the team's talents as a whole and individuals should not be

- pressed to perform activities until safely perfected.
5. All cheerleaders should receive proper training before attempting any form of cheerleading skills (e.g. tumbling, partner stunts, pyramids and jumps).
 6. Thorough training in proper spotting techniques should be mandatory for all teams.
 7. All cheerleading teams should adopt a comprehensive conditioning and strength-building program.
 8. An appropriate warm-up exercise should precede all cheerleading activities.
 9. Prior to the performance of any skill, the immediate environment for the activity should be taken into consideration including, but not limited to proximity of non-cheerleading personnel, performance surface, lighting and/or any weather precipitation (re: outdoor activities). Technical skills should not be performed on concrete, asphalt, wet or uneven surfaces or surfaces with obstructions.
 10. Teams should qualify cheerleaders according to generally accepted teaching progressions. Appropriate spotting should be used until all performers demonstrate proficiency of the skill.
 11. All jewelry is prohibited during participation. Religious medals and medical medals are not considered to be jewelry. A religious medal without a chain must be taped and worn under the uniform. A medical alert medal must be taped and may be visible.
 12. Supports, braces and soft casts which are unaltered from the manufacturer's original design/production do not require any additional padding. Supports/braces and supports/braces that have been altered from the manufacturer's design/production must be padded with a closed-cell, slow-recovery foam padding no less the one-half (1/2) inch/1.27 cm thick if the participant is involved in partner stuns, pyramids or tosses. A participant wearing a plaster cast or a walking boot must not be involved in partner stunts, pyramids or tosses.
 13. Team members must wear athletic shoes (no gymnastic slippers).
 14. When discarding props (signs, etc.) that are made of solid materials or have sharp edges/corners, team members must gently toss or place the props so that they are safely discarded in a controlled manner.
 15. The use of mini-trampolines, springboards, spring-assisted floors or any other height-increasing apparatus is prohibited for competition or performance. These devices may be used for skills development and practice under the supervision of a coach trained in their use.

C. WORLD SCHOOL CHEERLEADING CHAMPIONSHIPS DIVISIONS RULES

SPECIAL ABILITIES UNIFIED INTERMEDIATE DIVISION RULES **SPECIFIC DIVISION CRITERIA**

1. All WSCC general rules and guidelines, as well as routine requirements apply.
2. All Special Abilities Unified Teams must be comprised of a minimum 50% or more Athletes with intellectual disabilities.
3. All Stunts and Pyramids - at prep level or above - will require the spot of a Coach or Assistant.
4. Tosses are not allowed.
5. Spotted and assisted tumbling is not allowed in Competition; however, spotted and assisted tumbling is allowed in Exhibition performances.
6. Up to three (3) Coach(es) and/or Assistant(s) are allowed to signal from the front of the mat and may not obstruct the view of the judges. Additionally, there is no limit to the number of Assistants around the perimeter of the floor in a squat position.
7. Assistants shall be dressed in contrasting attire compared to the Athletes, so it is clear to the judges who are the Athletes and who are the Assistants on the floor at any time. For example, Assistants shall wear a dark t-shirt and pants in contrast to the Athletes' lighter colored uniform (or vice versa); however, Assistants may not wear a Cheerleading uniform during the routine.
8. Assistants shall wear athletic shoes (e.g. no flip-flops) and shall not wear any jewelry for the protection of the Athletes.

SPECIAL ABILITIES UNIFIED INTERMEDIATE DIVISION PARTNER STUNTS

1. Spotters:
 - a. A spotter is required for each top person above prep level.
 - b. A spotter is required for each top person in a floor stunt.
Clarification: The spotter may grab the top person's waist in a floor stunt.
2. Stunt Levels:
 - a. Single leg stunts above prep level are not allowed. A single leg stunt may not pass above prep level.
Clarification 1: Taking the top person in a single leg stunt above the head of the bases is not allowed.

Clarification 2: If the primary bases squat down, place their knees in the ground or drop the overall height of the stunt while extending their arms (excluding floor stunts), this skill would be considered extended and therefore not allowed, regardless of the back spot's position.

3. Twisting stunts and transitions are allowed up to a total of a ½ twisting rotation by the top person in relation to the performing surface.

Clarification 1: A twist performed with an additional turn by the bases performed in the same skill set, is not allowed if the resulting cumulative rotation of the top person exceeds a ½ rotation. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.

Exception: A single full twisting log/barrel roll is allowed as long as it starts and ends in a cradle position and is assisted by a base.

Clarification 2: A log/barrel roll may not include any other skills (e.g. kick full twists, etc.) other than the twist.

Clarification 3: A log/barrel roll may be assisted by another top person.

4. During transitions, at least one base must remain in contact with the other top person.
5. Free flipping or assisted flipping stunts and transitions are not allowed.
6. No stunt, pyramid or individual may move over or under another separate stunt, pyramid or individual.

Clarification 1: This rule pertains to an athlete's torso (midsection of an athlete's body) not moving over or under the torso of another athlete; this does not pertain to an athlete's arms or legs.

Clarification 2: A top person may not pass over or under the torso (midsection of an athlete's body) of another top person regardless if the stunt or pyramid is separate or not.

Example: A shoulder sit walking under a prep is not allowed.

Exception: An individual may jump over another individual.

7. Single based split catches are not allowed.
8. Single based stunts with multiple top persons are not allowed.

9. **SPECIAL ABILITIES UNIFIED INTERMEDIATE DIVISION Stunts-Release Moves**

- a. No release moves are allowed other than those allowed in Special Abilities Unified

Intermediate Division "Dismounts" and "Tosses".

- b. Release moves may not land in a prone or inverted position.
- c. Release moves must return to original bases. *Clarification: An individual may not land on the performing surface without assistance.* Exception: See Dismounts "3".
- d. Releasing from inverted to non-inverted body positions is not allowed.
- e. Helicopters are not allowed.
- f. A single full twisting log/barrel roll is allowed as long as it starts and ends in a cradle position.

Clarification 1: Single base log/barrel rolls must have two (2) catchers. Multi-base log/barrel rolls must have three (3) catchers.

Clarification 2: A log/barrel roll may not be assisted by another top person.

Clarification 3: A log/barrel roll must return to the original bases and may not include any skill other than the twist.

Example: No kick full twists.

- g. Release moves may not intentionally travel.
- h. Release moves may not pass over, under or through other stunts, pyramids or individuals.

10. **SPECIAL ABILITIES UNIFIED INTERMEDIATE DIVISION Stunts-Inversions**

- a. Transitions from ground level inversions to non-inverted positions are allowed. No other inversions are allowed.

Clarification: All inverted athletes (the top person) must maintain contact with the performance surface unless being lifted directly to a non-inverted position.

Example 1: Allowed: Transition from a handstand on the ground to a non-inverted stunt (e.g. a shoulder sit).

Example 2: Not Allowed: Transition from a cradle to a handstand or a transition from a prone position to a forward roll.

- b. Bases may not support any weight of a top person while that base is in a backbend or inverted position.

Clarification: A person standing on the ground is not considered a top person.

SPECIAL ABILITIES UNIFIED INTERMEDIATE DIVISION PYRAMIDS

1. Pyramids must follow Special Abilities Unified Intermediate Division "Stunts" and "Dismounts" rules and are allowed up to 2 high.

2. Top persons must receive primary support from a base.

Clarification: Anytime a top person is released by the bases during a pyramid transition, the top person must land in a cradle or must dismount to the performance surface, may not be connected to a bracer that is above prep level, and must follow the Special Abilities Unified Intermediate Division "Dismount" rules.

3. Extended stunts may not brace or be braced by any other extended stunts.

4. No stunt, pyramid or individual may move over or under another separate stunt, pyramid or individual.

Clarification: A top person may not pass over or under the torso (midsection of an athlete's body) of another top person regardless if the stunt or pyramid is separate or not.

Example: A shoulder sit walking under a prep is not allowed.

5. Extended single-leg stunts:

a. Extended single-leg stunts must be braced by at least one (1) top person at prep level or below with hand-arm connection only. The hand-arm connection of the top person must be, and must remain, connected to the hand-arm of the bracer.

b. The connection must be made prior to initiating the extended single leg stunt.

c. Prep level top persons must have both feet in the bases' hands.

Exception: Prep level top persons do not have to have both feet in the bases' hands if the top person is in a shoulder sit, flat back, straddle lift or shoulder stand.

SPECIAL ABILITIES UNIFIED INTERMEDIATE DIVISION DISMOUNTS

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

1. Cradles from single based stunts must have a spotter with at least 1 hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.

2. Cradles from multi-based stunts must have 2 catchers and a spotter with at least 1 hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.

3. Dismounts must return to the original base(s):

Exception 1: Dismounts to the performance surface must be assisted by either an original base and/or spotter.

Exception 2: Straight drops or small hop offs, with no additional skill(s), from the waist level or below are the only dismounts allowed to the performance surface without assistance.

Clarification: An individual may not land on the performance surface from above waist level without assistance.

4. Only straight pop downs, basic straight cradles and ¼ turns are allowed.

5. Twisting dismounts exceeding ¼ turn/rotation are not allowed. All other positions/additional skills are not allowed.

Example: Toe touch, pike, tuck, etc. positions /additional skills are not allowed in the dismount.

6. No stunt, pyramid, individual, or, prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or props.

7. Cradles from extended single-leg stunts in pyramids are allowed

8. No free flipping or assisted flipping dismounts are allowed.

9. Dismounts may not intentionally travel.

10. Top persons in dismounts may not come in contact with each other while released from the bases.

11. Tension drops/rolls of any kind are not allowed.

SPECIAL ABILITIES UNIFIED INTERMEDIATE DIVISION TOSSES

1. Tosses are not allowed.

Clarification 1: This includes "Sponge" (also known as Load Ins or Squish) tosses.

Clarification 2: All waist level cradles are not allowed.

SPECIAL ABILITIES UNIFIED INTERMEDIATE DIVISION GENERAL TUMBLING

1. All tumbling must originate from and land on the performing surface.

Clarification: A tumbler may rebound from his/her feet into a transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.

Example: Round off handspring and then a bump or contact from a base or bracer straight into a

back flip would break this rule. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.

2. Tumbling over, under, or through a stunt, individual, or prop is not allowed.
Clarification: An individual may jump over (rebound) another individual.
3. Tumbling while holding or in contact with any prop is not allowed.
4. Dive rolls are allowed:
Exception 1: Dive rolls performed in a swan/arched position are not allowed.
Exception 2: Dive rolls that involve twisting are not allowed.
5. Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump skill is included in a tumbling pass, the jump will break up the pass.
6. There is no twisting or turning allowed after a back handspring step out. The feet must come together after the skill is completed prior to twisting or turning.
Example: A back handspring step out immediately moving into a ½ turn is not allowed.

SPECIAL ABILITIES UNIFIED INTERMEDIATE DIVISION STANDING TUMBLING

1. Flips and aerals are not allowed.
2. Series front and back handsprings are not allowed.
Clarification: A back walkover into a back handspring is allowed.
3. Jump skills in immediate combination with handspring(s) is not allowed.
Example: Toe touch handsprings and handspring toe touches are not allowed.
4. No twisting while airborne.
Exception: Round offs are allowed.

SPECIAL ABILITIES UNIFIED INTERMEDIATE DIVISION RUNNING TUMBLING

1. Flips and aerals are not allowed.
2. Series front and back handsprings are allowed.
3. No twisting while airborne.
Exception: Round offs are allowed.

PARACHEER UNIFIED ADVANCED DIVISION RULES

SPECIFIC DIVISION CRITERIA

1. All WSCC general rules and guidelines, as well as routine requirements apply.

2. All ParaCheer Unified Teams must be comprised of a minimum 25% or more ParaCheer Athletes per team.

Clarification: ParaCheer Athlete qualification is subject to respective WSCC general rules and guidelines, as well as Team confirmation and/or medical documentation, as requested. (Please see XV. PARACHEER QUALIFICATION GUIDELINES for more information)

3. Wheelchair users when basing stunts and pyramids must have all wheels in contact with the performance surface during the skill with an added and appropriate anti-tip attachment for safety.
Clarification: An appropriate wheelchair anti-tip attachment must be in contact with the chair and the performance surface as an additional point of contact to the performance surface while both wheels of the wheelchair are also in contact with the performance surface.
4. Wheelchair users when topping stunts and pyramids in the wheelchair (or similar apparatus) must use a seatbelt.
5. All athletes spotting, catching and/or cradling a skill must have mobility through their lower body (with or without use of mobility equipment) to absorb the impact of the skill, as well as with adequate lateral speed to spot, catch and/or cradle the skill.
6. All athletes spotting, catching and/or cradling a skill must have at minimum 1 arm extended beyond the elbow to adequately assist with the skill.
7. Release moves and dismounts may be caught by individuals who were not the original base(s) if the main base(s) are not capable of catching and/or cradling the skill.
8. Mobility devices (i.e. wheelchairs, crutches, etc.) may be used to aid the top person in loading into a stunt and/or pyramid.
Example: A top person may step upon any portion of a wheelchair, mobile device, and/or upon a base supporting a crutch to load into a skill.
9. All mobility equipment, prosthesis, and braces are considered part of the athlete unless they are removed, in which case they are considered legal props, until replaced on or returned to the athlete.
10. Basket tosses are not allowed.

PARACHEER UNIFIED ADVANCED DIVISION STUNTS

1. A spotter is required for each top above prep level.
2. Single leg extended stunts are allowed.
3. Twisting stunts and transitions to prep level are allowed up to 1 ½ twisting rotations by the top person in relation to the performance surface.
Clarification: A twist performed with an additional turn by the bases performed in the same skill set, is not allowed if the resulting cumulative rotation of the top person exceeds a 1½ rotation. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.
4. Twisting stunts and transitions to an extended position are allowed under the following conditions:
 - a. Extended skills up to a ½ twist are allowed.
Example: A ½ up to extended single leg stunt is allowed.
Clarification: Any additional turn performed by the bases in the same skill set would not be allowed if the resulting cumulative rotation of the top person exceeds ½ rotation. The safety judges will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once the stunt is hit (i.e. a prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.
 - b. Extended skills exceeding a ½ twist but not exceeding 1 twist must land in a 2 -leg stunt, platform position or a liberty (body position variations are not allowed).
Example: A full up (1 twist) to an immediate extended heel stretch is not allowed, but a full up (1 twist) to an extension is allowed.
Clarification 1: An extended platform position must be visibly held prior to executing a single leg (1 leg) stunt other than a liberty.
Clarification 2: Any additional turn performed by the bases in the same skill set would not be allowed if the resulting cumulative rotation of the top person exceeds 1 rotation. The safety judges will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once the stunt is hit (i.e. a prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.
5. During transitions, at least 1 base must remain in contact with the top person.
Exception: See “Release Moves”.

6. Free flipping mounts and transitions are not allowed.
7. No stunt, pyramid or individual may move over or under another separate stunt, pyramid or individual.
Clarification: This rule pertains to an athlete’s torso (midsection of an athlete’s body) not moving over or under the torso of another athlete; this does not pertain to an athlete’s arms or legs.
Example: A shoulder sit walking under a prep is not allowed.
Exception 1: An individual may jump over another individual.
Exception 2: An individual may move under a stunt or a stunt may move over an individual.
8. Single based split catches are not allowed.
9. Single based stunts with multiple top persons require a separate spotter for each top person. Extended single leg top persons may not connect to any other extended single leg top person.
10. **PARACHEER UNIFIED ADVANCED DIVISION Stunts-Release Moves**
 - a. Release moves are allowed but must not exceed extended arm level.
Clarification: If the release move passes above the bases’ extended arm level, it will be considered a toss and/or dismount, and must follow the appropriate “Toss” and/or “Dismount” rules. To determine the height of a release move, at the highest point of the release, the distance from the hips to the extended arms of the bases will be used to determine the height of the release. If that distance is greater than the length of the top person’s legs, it will be considered a toss or dismount and must follow the appropriate “Toss” or “Dismount” rules.
 - b. Release moves may not land in an inverted position. When performing a release move from an inverted position to a non-inverted position, the bottom of the dip will be used to determine if the initial position was inverted. Release moves inverted to non-inverted positions may not twist. Release moved from inverted to non-inverted positions landing at prep level or higher must have a spot.
 - c. Release skills that land in a non-upright position must have 3 catchers for a multi-based stunt and 2 catchers for a single based stunt.
 - d. Release moves must return to original bases, unless the original base(s) are not physically

capable of catching the release move as designated.

Clarification: An individual may not land on the performing surface without assistance.

Exception 1: See Dismounts "3".

Exception 2: Dismounting single based stunts with multiple top persons.

- e. Release moves that land in an extended position must originate from waist level or below and may not involve twisting or flipping.
- f. Release moves initiating from an extended level may not twist.
- g. Helicopters are allowed up to a 180 degree rotation and 0 twisting and must be caught by at least 3 catchers, one of which is positioned at head and shoulder area of the top person.
- h. Release moves may not intentionally travel.
- i. Release moves may not pass over, under or through other stunts, pyramids or individuals.
- j. Top persons in separate release moves may not come in contact with each other.

Exception: Dismounting single based stunts with multiple top persons.

11. PARACHEER UNIFIED ADVANCED DIVISION

Stunts-Inversions

- a. Extended inverted stunts are allowed. Also, see "Stunts" and "Pyramids."
- b. Downward inversions are allowed at prep level and must be assisted by at least 3 catchers, at least 2 of which are positioned to protect the head and shoulder area.
Exception: A controlled lowering of an extended inverted stunt (example: handstand) to shoulder level is allowed.

Clarification 1: The stunt may not pass above prep level and then become inverted at prep level or below. (The momentum of the top person coming down is the primary safety concern.)

Clarification 2: Catchers must make contact with the waist to shoulder region to protect the head and shoulder area of the top person.

Clarification 3: Downward inversions originating from below prep level do not require three (3) bases.

Exception: Two-leg "Pancake" stunts must start at shoulder level or below and are allowed to immediately pass through the extended position during the skill.

Clarification 4: Two-leg Pancakes cannot stop or land in an inverted position.

- c. Downward inversions must maintain contact with an original base.

Exception: Side rotating downward inversions.

Example: In cartwheel-style transitions, the original base may lose contact with the top person when it becomes necessary to do so.

- d. Downward inversions may not come into contact with each other.

- 11. Bases may not support any weight of a top person while that base is in a backbend or inverted position.

Clarification: A person standing on the ground is not considered a top person.

PARACHEER UNIFIED ADVANCED DIVISION PYRAMIDS

- 1. Pyramids must follow ParaCheer Unified Advanced Division "Stunts" and "Dismounts" rules and are allowed up to 2 high.
Exception: Twisting mounts and transitions to extended skills are allowed up to 1 ½ twists if connected to a bracer at prep level or below. The connection must be made prior to the initiation of the skill and must remain in contact throughout the transition.
- 2. Top persons must receive primary support from a base.
Exception: See ParaCheer Unified Advanced "Pyramid Release Moves"
- 3. Extended single leg (1 leg) stunts may not brace or be braced by any other single leg (1 leg) extended stunts.
- 4. No stunt or pyramid may move over or under another separate stunt or pyramid.
Clarification: A top person may not invert over or under the torso (midsection of an athlete's body) of another top person regardless if the stunt or pyramid is separate or not.
Example: A shoulder sit walking under a prep is not allowed.
Exception 1: An individual may jump over another individual.
Exception 2: An individual may move under a stunt or a stunt may move over an individual.
- 5. Any skill that is allowed as a ParaCheer Unified Advanced Division Release Move is also allowed if it remains connected to a base and a bracer (or 2 bracers when required).
Example: An extended Pancake would be required to remain connected to 2 bracers.

6. **PARACHEER UNIFIED ADVANCED DIVISION
PYRAMIDS - Release Moves**

- a. During a pyramid transition, a top person may pass above 2 persons high while in direct physical contact with at least 1 person at prep level or below. Contact must be maintained with the same bracer(s) throughout the entire transition.

Clarification 1: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.

Exception: While a tic-tock from prep level or higher to an extended position (e.g. low to high and high to high) is not allowed for ParaCheer Unified Advanced Division "Stunts", the same skill is allowed in ParaCheer Unified Advanced Division "Pyramid Release Moves" if the skill is braced by at least 1 person at prep level or below. The top person performing the tic-tock must be braced the entire time during the release from the bases.

Clarification 2: ParaCheer Unified Advanced Division Pyramid Release Moves may incorporate stunt release moves that maintain contact with 1 other top person provided the release move meets the ParaCheer Unified Advanced Division "Stunt Release Moves" or "Dismounts" criteria.

Clarification 3: Twisting stunts and transitions are allowed up to 1 ½ twists if connected to at least 1 bracer at prep level or below.

- c. In a pyramid transition, a top person may travel over another top person while connected to that top person at prep level or below.
- d. Primary weight may not be borne at the 2nd level.
Clarification: The transition must be continuous.
- e. Non-inverted transitional pyramids may involve changing bases under the following conditions:
- The top person must maintain physical contact with a person at prep level or below.
Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.
 - The top person must be caught by at least 2 catchers (minimum of 1 catcher and 1 spotter). Both catchers must be stationary and may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill).
- f. Non-inverted pyramid release moves must be caught by at least 2 catchers (minimum of 1 catcher and 1 spotter) under the following conditions:

- Both catchers must be stationary.
- Both catchers must maintain visual contact with the top person throughout the entire transition.

6. Release moves may not be braced / connected to the top persons above prep level.

7. **PARACHEER UNIFIED ADVANCED DIVISION
Pyramids-Inversions**

- a. Must follow ParaCheer Unified Advanced Division "Stunt Inversions" rules.

8. **PARACHEER UNIFIED ADVANCED DIVISION
Pyramids-Release Moves w/ braced
inversions**

- a. Pyramid transitions may involve braced inversions (including braced flips) while released from the bases if contact is maintained with at least 2 persons at prep level or below. Contact must be maintained with the same bracer throughout entire transition. *Clarification 1: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.* *Clarification 2: Braced flips must be braced on 2 separate sides (i.e. right side - left side, left side- back side, etc.) by 2 separate bracers. (Example: Two bracers on the same arm will no longer be permitted). A top person must be braced on 2 of the 4 sides (front, back, right or left) of their body.*
- b. Braced inversions (including braced flips) are allowed up to 1 ¼ flipping rotations and 0 twisting rotations.
- c. Braced inversions (including braced flips) may not involve changing bases.
- d. Braced inversions (including braced flips) must be in continuous movement.
- e. All braced inversions (including braced flips) that do not twist must be caught by at least 3 catchers.
Exception: Brace flips that land in an upright position at prep level or above require a minimum of 1 catcher and 2 spotters.
- All required catchers / spotters must be stationary.
 - All required catchers / spotters must maintain visual contact with the top person throughout the entire transition.
 - The required catchers / spotters may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)

- e. Braced inversions (including braced flips) may not travel downward while inverted.
- f. Braced inversions (including braced flips) may not come in contact with other stunt / pyramid release moves.
- g. Braced inversions (including braced flips) may not be braced / connected to top persons above prep level.

PARACHEER UNIFIED ADVANCED DIVISION DISMOUNTS

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

1. Cradles from single based stunts must have a spotter with at least 1 hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
2. Cradles from multi-based stunts must have 2 catchers and a spotter with at least 1 hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
3. Dismounts must return to the original base(s).
Exception 1: Dismounts to the performance surface must be assisted by either an original base(s) and/or a spotter(s).
Exception 2: Straight drops or small hop offs, with no additional skill(s), from the waist level or below are the only dismounts allowed to the performing surface without assistance.
Clarification: An individual may not land on the performing surface from above waist level without assistance.
4. Up to a 2 ¼ twisting rotations are allowed from all 2 - leg stunts.
Clarification: Twisting from a platform position may not exceed 1 ¼ rotations. A Platform is not considered a 2 - leg stunt. There are specific exceptions given for the platform body position within the ParaCheer Unified Advanced Division "Stunts" regarding Twisting Stunts and Transitions specifically.
5. Up to a 1 ¼ twisting rotations are allowed from all single leg (1 leg) stunts.
Clarification: A Platform is not considered a 2 - leg stunt. There are specific exceptions given for the platform body position within the ParaCheer Unified Advanced Division "Stunts" regarding Twisting Stunts and Transitions specifically.
6. No stunt, pyramid, individual, or, prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or prop.

Exception: If the "prop" is a mobile device of a ParaCheer athlete, then it is allowed.

7. During a cradle that exceeds 1 ¼ twists, no skill other than the twist is allowed.
8. No free flipping dismounts allowed.
9. Dismounts may not intentionally travel.
10. Top persons in dismounts may not come in contact with each other while released from the bases.
11. Tension drops/rolls of any kind are not allowed.
12. When cradling single based stunts with multiple top persons, 2 catchers must catch each top person. Catchers and bases must be stationary prior to the initiation of dismount.
13. Dismounts from an inverted position may not twist.

PARACHEER UNIFIED ADVANCED DIVISION TOSSES

1. Basket Tosses are not allowed.

PARACHEER UNIFIED ADVANCED DIVISION GENERAL TUMBLING

1. All tumbling must originate from and land on the performance surface.
Clarification: A tumbler may rebound from his/her feet into a transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.
Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.
2. Tumbling over, under, or through a stunt, individual, or prop is not allowed, unless the "prop" is mobility equipment for a ParaCheer athlete.
Clarification: An individual may jump over another individual.
3. Tumbling while holding or in contact with any prop is not allowed, unless the "prop" is mobility equipment for a ParaCheer athlete.
4. Dive rolls are allowed:
Exception 1: Dive rolls performed in a swan/arched position are not allowed.

Exception 2: Dive rolls that involve twisting are not allowed.

5. Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump skill is included in a tumbling pass, the jump will break up the pass.

Example: If an athlete in ParaCheer Unified Advanced performs a round off - toe touch - back handspring- whip-layout, this combination of skills would not be allowed since consecutive flip-flip combinations are not allowed within the ParaCheer Unified Advanced Standing Tumbling regulations.

PARACHEER UNIFIED ADVANCED DIVISION STANDING TUMBLING

1. Standing flips and flips from a back handspring entry are allowed.
2. Skills are allowed up to 1 flipping and 0 twisting rotations.
Exception: Aerial cartwheels and Onodis are allowed.
3. Consecutive flip-flip combinations are not allowed.
Example: Back tuck – back tuck, back tuck – punch front are not allowed.
4. Jump skills are not allowed in immediate combination with a standing flip.
Example: Toe touch back tucks, back tuck toe touches, pike jump front flips are not allowed.
Clarification 1: Jumps connected to $\frac{3}{4}$ front flips are not allowed.
Clarification 2: Toe touch back handspring back tucks are allowed because the flip skill is not connected immediately after the jump skills.

PARACHEER UNIFIED ADVANCED DIVISION RUNNING TUMBLING

1. Skills are allowed up to 1 flipping and 0 twisting rotations.
Exception: Aerial cartwheels and Onodis are allowed.

PRIMARY SCHOOL/CLUB NOVICE DIVISION (L1)

Note: For Athletes 6 years old and younger only- within the year of competition

PRIMARY SCHOOL/CLUB NOVICE DIVISION STUNTS

1. Spotters:
 - a. A spotter is required for each top person at prep level and above.
Example: Suspended splits, flat-bodied positions and preps are examples of prep level stunts. Extended arm stunts that are not in the upright position (e.g. v-sits, extended flats backs, etc.) are considered prep level stunts.

Clarification 1: The center base in an extended v-sit may be considered a spotter as long as they are in a position to protect the head and shoulders of the top person.

Clarification 2: If the primary bases squat, go to their knees or drop the overall height of the stunt while extending their arms (excluding floor stunts), this skill would be considered extended and therefore not allowed, regardless of the back spot's position.

Exception: Shoulder sits/straddles, t-lifts and stunts with up to a $\frac{1}{2}$ twist transition where the top person starts and ends on the performance surface while only being supported continuously at the waist, do not require a spotter.

- b. A spotter is required for each top person in a floor stunt.

Clarification: The spotter may grab the top person's waist in a floor stunt.

2. Stunt Levels:

- a. Single leg stunts are only allowed at waist level.

Exception 1: Prep level single legs stunts are allowed if the top person is connected to someone standing on the performance surface, which must be a separate person other than the base(s) or spotter. The connection must be hand/arm to hand/arm and must be made prior to initiating the single leg prep level stunt.

Exception 2: A walk up shoulder stand is allowed in the Primary School/Club Novice Division if both hands of the top person are in contact with both hands of the base until both feet of the top person are placed on the shoulders of the base.

- b. Stunts above prep level are not allowed. A stunt may not pass above prep level.

Clarification: Taking the top person above the head of the bases is not allowed.

3. Twisting stunts and transitions are allowed up to a total of a $\frac{1}{4}$ twisting rotation by the top person in relation to the performing surface.

Clarification: A twist performed with an additional turn by the bases performed in the same skill set, is not allowed if the resulting cumulative rotation of the top person exceeds a $\frac{1}{4}$ rotation. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may

continue to walk the stunt in additional rotation.

Exception 1: Rebounding to a prone position ($\frac{1}{2}$ twist to stomach) is a stunt that is allowed in the Primary School/Club Novice Division.

Exception 2: $\frac{1}{2}$ wrap around stunts are allowed in the Primary School/Club Novice Division.

Exception 3: Up to a $\frac{1}{2}$ twist is allowed if the top person starts and ends on the performance surface and is only supported at the waist and does not require an additional spotter.

4. During transitions, at least one base must remain in contact with the other top person.

Exception: Leap frogs and leap frog variations are not allowed in the Primary School/Club Novice Division.

5. Free flipping or assisted flipping stunts and transitions are not allowed.
6. No stunt, pyramid or individual may move over or under another separate stunt, pyramid or individual.

Clarification 1: This rule pertains to an athlete's torso (midsection of an athlete's body) not moving over or under the torso of another athlete; this does not pertain to an athlete's arms or legs.

Clarification 2: A top person may not pass over or under the torso (midsection of an athlete's body) of another top person regardless if the stunt or pyramid is separate or not.

Example: A shoulder sit walking under a prep is not allowed.

Exception: An individual may jump over another individual.

7. Single based split catches are not allowed.
8. Single based stunts with multiple top persons are not allowed.

9. **PRIMARY SCHOOL/CLUB NOVICE DIVISION Stunts-Release Moves**

- a. No release moves are allowed other than those allowed in Primary School/Club Novice Division "Dismounts" and "Tosses".
- b. Release moves may not land in a prone or inverted position.
- c. Release moves must return to original bases.
Clarification: An individual may not land on the performing surface without assistance.
- d. Helicopters are not allowed.
- e. A single full twisting log/barrel roll is not allowed.
- f. Release moves may not intentionally travel.
- g. Release moves may not pass over, under or through other stunts, pyramids or individuals.

10. **PRIMARY SCHOOL/CLUB NOVICE DIVISION Stunts-Inversions**

- a. Inversions are not allowed.

Clarification: All inverted athletes (the top person) must maintain contact with the performance surface (see Primary School/Club Novice Division "Standing/Running Tumbling").

Example: A supported handstand on the performance surface is not considered a stunt but is a legal inversion.

11. Bases may not support any weight of a top person while that base is in a backbend or inverted position.

Clarification: A person standing on the ground is not considered a top person.

PRIMARY SCHOOL/CLUB NOVICE DIVISION PYRAMIDS

1. Pyramids must follow Primary School/Club Novice Division "Stunts" and "Dismounts" rules and are allowed up to 2 high.
2. Top persons must receive primary support from a base.
Clarification: Anytime a top person is released by the bases during a pyramid transition, the top person must land in a cradle or must dismount to the performance surface, may not be connected to a bracer that is above prep level, and must follow the Primary School/Club Novice Division "Dismount" rules.
3. Two leg stunts:
 - a. Two leg stunts must be braced by a top person at prep level or below with a hand-arm connection only, with the following conditions:
 - i. The connection must be made prior to initiating the two leg extended stunt.
 - ii. Prep level top person bracers must have both feet in bases' hands.
Exception: Prep level top persons are not required to have both feet in the bases' hands if the top person is in a shoulder sit, flat back, straddle lift or shoulder stand.
 - b. Two leg extended stunts may not brace or be braced by other extended stunts.
4. Single leg stunts:
 - a. Prep level single leg stunts must be braced by at least one person at prep level or below with a hand-arm connection only, with the following conditions:
 - i. The connection must be made prior to initiating the single leg prep level stunt.
 - ii. Prep level top person bracers must have both feet in bases' hands.

Exception: Prep level bracers are not required to have both feet in the bases' hands if the top person is in a shoulder sit, flat back, straddle lift or shoulder stand.

- b. Extended single leg stunts are not allowed.
- 5. No stunt, pyramid or individual may move over or under another separate stunt, pyramid or individual.
Clarification: A top person may not pass over or under the torso (midsection of an athlete's body) of another top person regardless if the stunt or pyramid is separate or not.
Example: A shoulder sit walking under a prep is not allowed.

PRIMARY SCHOOL/CLUB NOVICE DIVISION DISMOUNTS

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

- 2. Cradles from multi-based stunts must have 2 catchers and a spotter with at least 1 hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
Clarification 1: Sponge, Load In, Squish cradles are considered tosses and are not allowed in any Special Abilities division.
Clarification 2: All waist level cradles are not allowed.
- 3. Dismounts must return to the original base(s):
Exception 1: Dismounts to the performance surface must be assisted by either an original base and/or spotter.
Exception 2: Straight drops or small hop offs, with no additional skill(s), from the waist level or below are the only dismounts allowed to the performance surface without assistance.
Clarification: An individual may not land on the performance surface from above waist level without assistance.
- 4. Only straight pop downs, basic straight cradles are allowed.
- 5. Twisting dismounts (including a ¼ turn/rotation) are not allowed.
- 6. No stunt, pyramid, individual, or prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- 7. No dismounts are allowed from skills above a prep level in pyramids.

- 8. No free flipping or assisted flipping dismounts are allowed.
- 9. Dismounts may not intentionally travel.
- 10. Top persons in dismounts may not come in contact with each other while released from the bases.
- 11. Tension drops/rolls of any kind are not allowed.

PRIMARY SCHOOL/CLUB NOVICE DIVISION TOSSES

- 1. Tosses are not allowed.
Clarification 1: This includes "Sponge" (also known as Load Ins or Squish) tosses.
Clarification 2: All waist level cradles are not allowed.

PRIMARY SCHOOL/CLUB NOVICE DIVISION GENERAL TUMBLING

- 1. All tumbling must originate from and land on the performing surface.
Clarification: A tumbler may rebound from his/her feet into a stunt transition. For relevant Divisions, if the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.
Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule for the Primary School/Club Novice Division. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.
Exception: Rebounding to a prone position (1/2 twist to stomach) in a stunt is allowed in the Primary School/Club Novice Division.
- 2. Tumbling over, under, or through a stunt, individual, or prop is not allowed.
Clarification: An individual may jump over (rebound) another individual.
- 3. Tumbling while holding or in contact with any prop is not allowed.
- 4. Dive rolls are not allowed:
- 5. Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump skill is included in a tumbling pass, the jump will break up the pass.

PRIMARY SCHOOL/CLUB NOVICE DIVISION STANDING/RUNNING TUMBLING

1. Skills must involve constant physical contact with the performance surface.
Exception: Block cartwheels and round offs are allowed.
2. Forward and backward rolls, front and back walkovers, and handstands are allowed.
3. Cartwheels and round offs are allowed.

Clarification 1: Taking the top person in a single leg stunt above the head of the bases is not allowed.
Clarification 2: If the primary bases squat down, place their knees in the ground or drop the overall height of the stunt while extending their arms (excluding floor stunts), this skill would be considered extended and therefore not allowed, regardless of the back spot's position.
 - b. Single based or assisted single based EXTENDED stunts are not allowed.
3. Twisting stunts and transitions are allowed up to a total of a ½ twisting rotation by the top person in relation to the performing surface.
Clarification 1: A twist performed with an additional turn by the bases performed in the same skill set, is not allowed if the resulting cumulative rotation of the top person exceeds a ½ rotation. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set.

Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.

Exception: A single full twisting log/barrel roll is allowed as long as it starts and ends in a cradle position and is assisted by a base.

Clarification: A tumbler may rebound from his/her feet into a transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.
Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule for the Primary School/Club Intermediate Divisions.  - Single leg extended stunts are allowed.
 - Single based or assisted single based EXTENDED stunts are not allowed.
- Twisting stunts and transitions:
 - Twisting stunts and transitions are allowed up to a total of 1 twisting rotation by the top person in relation to the performance surface.
Clarification 1: A twist performed with an additional turn by the bases performed in the same skill set, is not allowed if the resulting cumulative rotation of the top person exceeds 1

rotation. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.

- b. Full twisting transitions must land at and originate from prep level or below only.
- c. Twisting transitions to and from an extended position cannot exceed a ½ twisting rotation.
Clarification: A twist performed with an additional turn by the bases performed in the same skill set would be not allowed if the resulting cumulative rotation of the top person exceeds ½ rotation.

Example: A shoulder sit walking under a prep is not allowed.
Exception: An individual may jump over another individual.
7. Single based split catches are not allowed.
8. Single based stunts with multiple top persons require a separate spotter for each top person. Extended single leg top persons may not connect to any other extended stunts.

9. PRIMARY SCHOOL/CLUB MEDIAN DIVISION Stunts-Release Moves

- a. Release moves are allowed but must not pass above the extended arm level.
Clarification: If the release move passes above the bases' extended arm level, it will be considered a toss and/or dismount, and must follow the appropriate "Toss" and/or "Dismount" rules. To determine the height of a release move, at the highest point of the release, the distance from the hips to the extended arms of the bases will be used to determine the height of the release. If that distance is greater than the length

of the top person's legs, it will be considered a toss or dismount and must follow the appropriate "Toss" and/or "Dismount" rules.

- b. Release moves may not land in an inverted position. Releasing from inverted to non-inverted body positions is not allowed.
 - c. Release moves must start at waist level or below and must be caught at prep level or below.
 - d. Release moves that land in a non-upright body position must have 3 catchers for a multi-based stunt and 2 catchers for a single based stunt.
 - e. Release moves are restricted to 1 skill/trick and no/0 twists. Only skills performed during the release are counted. Therefore; holding ("hitting") an immediate body position would not be counted as a skill.
Exception: Log/barrel roll may twist up to 1 rotation and must land in a cradle, or in a flat and horizontal body position (i.e. Flat back or prone position).
Clarification: Single based log rolls must have 2 catchers. Multi-based log rolls must have 3 catchers.
 - f. Release moves must return to original bases.
Clarification: An individual may not land on the performing surface without assistance.
Exception 1: See Dismount "3".
Exception 2: Dismounting single based stunts with multiple top persons.
 - g. Helicopters are not allowed.
 - h. Release moves may not intentionally travel.
 - i. Release moves may not pass over, under or through other stunts, pyramids or individuals.
 - j. Top persons in separate release moves may not come into contact with each other.
- #### **10. PRIMARY SCHOOL/CLUB MEDIAN DIVISION Stunts-Inversions**
- a. No inverted stunts are allowed above shoulder level. The connection and support of the top person with the base(s) must be at shoulder level or below.
Exception: Multi-based suspended rolls to a cradle, load-in position, flat body position at prep level or at the performance surface level are allowed. Multi-based suspended rolls must be supported by 2 hands. Both hands of the top person must be connected to a separate hand of the bases(s).

- b. Inversions are limited to a ½ twisting rotation to the extended level and 1 twisting rotation to the prep level and below.
Exception 1: A multi-based suspended forward roll may twist to 1 full twisting rotation (See “a”. Exception above), and if exceeding a ½ twist the top person must land in a cradle.
Exception 2: In a multi-based suspended backward roll, the top person may not twist.
- c. Downward inversions are only allowed at waist level and must be assisted by at least 2 bases/catchers positioned at the waist to shoulder region to protect the head and shoulder area. The top person must maintain contact with an original base.
Clarification 1: The stunt may not pass through prep level and then become inverted below prep level (the momentum of the top person coming down is the primary safety concern).
Clarification 2: Catchers must make contact with the waist to shoulder region to protect the head and shoulder area.
Clarification 3: Two leg “Pancake” stunts are not allowed in the Primary School/Club Median Division.
- d. Downward inversions may not come in contact with each other.
- e. Bases may not support any weight of a top person while that base is in a backbend or inverted position.
Clarification: A person standing on the ground is not considered a top person.

**PRIMARY SCHOOL/CLUB MEDIAN DIVISION
PYRAMIDS**

- 1. Pyramids must follow Primary School/Club Median Division "Stunts" and "Dismounts" rules and are allowed up to 2 high. (Single based and assisted single based EXTENDED stunts are not allowed).
- 2. Top persons must receive primary support from a base.
Exception: See Primary School/Club Median Division Pyramid Release Moves.
- 3. Extended stunts may not brace or be braced by any other extended stunts.
- 4. No stunt, pyramid or individual may move over or under another separate stunt, pyramid or individual.
Clarification: A top person may not pass over or under the torso (midsection of an athlete’s body) of another top person regardless if the stunt or pyramid is separate or not.

Example: A shoulder sit walking under a prep is not allowed.

- 5. Twisting stunts and transitions to extended skills are allowed up to 1 twist, if connected to at least 1 bracer at prep level or below and connected to at least 1 base. The connection to the bracer must be a hand/arm to hand/arm connection- and must be made prior to the initiation of the skill and must remain in contact throughout the skill. A hand/arm connection does not include a connection to the shoulder area.
- 6. **PRIMARY SCHOOL/CLUB MEDIAN DIVISION
Pyramids-Release Moves**
Clarification 1: Any Primary School/Club Median Division Pyramid Release Move is allowed if it remains connected to a base and 2 bracers.
Clarification 2: Anytime a top person is released by the bases during a pyramid transition and does not adhere to the following four rules, the top person must land in a cradle or dismount to the performing surface and must follow the Primary School/Club Median Division dismount rules.
 - a. During a pyramid transition, a top person may pass above 2 persons high while in direct physical contact with at least 2 persons at prep level or below. Contact must be maintained with the same bracers throughout the entire transition.
Clarification 1: Twisting stunts and transitions are allowed up to 1 twist, if connected to at least 2 bracers at prep level or below with an arm/arm connection. The connection must be made prior to the initiation of the skill and must remain in contact throughout the entire skill.
Clarification 2: Primary School/Club Median Pyramid Release Moves may incorporate stunt release moves that maintain contact with 1 other top person provided the Release Move meets the criteria established under the Primary School/Club Median Division Stunt Release Moves or the Primary School/Club Median Division Dismounts.
 - b. The top person must remain in direct contact with at least 2 different top persons at prep level or below. One of these contacts must be in a hand/arm to hand/arm connection; and the 2nd contact may be either a hand/arm to hand/arm connection OR in a hand/arm to foot/lower leg (below the knee) connection.
Clarification 1: Pyramid Release Moves must be braced on 2 separate sides (e.g. right side & left side, left side & back side, etc.) by 2

separate bracers. The 2 bracers located on the same arm is not permitted, and a top person must be braced on 2 of the 4 sides (front, back, right, left) of her/his body.

Clarification 2: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.

- c. Primary weight may not be borne at second level.
Clarification: The transition must be continuous.
- d. These release transitions may not involve changing bases.
- e. These transitions must be caught by at least 2 catchers (minimum of 1 catcher and 1 spotter).
 - i. Both catchers must be stationary.
 - ii. Both catchers must maintain visual contact with the top person throughout the entire transition.
- f. Release moves may not be braced/connected to any top person(s) above prep level.

7. PRIMARY SCHOOL/CLUB MEDIAN DIVISION

Pyramids-Inversions

- a. Must follow the Primary School/Club Median Division Stunt Inversions rules.
- b. A top person may pass through an inverted position, during a pyramid transition, if the top person remains in contact with a base(s) that is in direct weight bearing contact with the performance surface and a bracer at prep level or below. The top person must remain in contact with both the bracer and the base throughout the transition. The base that remains in contact with the top person may extend their arms during the transition, if the skill starts and ends in a position at prep level or below.

Example 1: A flat back split which rolls to a load in position would be allowed even if the base extends their arms during the inversion skill.

Example 2: A flat back split which rolls to an extended position would be not allowed because it did not first land in a position below extended level.

8. PRIMARY SCHOOL/CLUB MEDIAN DIVISION

Pyramids-Release Moves w/Braced Inversions

- a. Pyramid transitions may not involve inversions while released from the bases.

PRIMARY SCHOOL/CLUB MEDIAN DIVISION DISMOUNTS

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

- 1. Cradles from single based stunts must have a spotter with at least 1 hand/arm supporting the waist to

shoulder region to protect the head and shoulder area through the cradle.

- 2. Cradles from multi-based stunts must have 2 catchers and a spotter with at least 1 hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- 3. Dismounts must return to the original base(s)
Exception 1: Dismounts to the performance surface must be assisted by either an original base and/or spotter.
Exception 2: Straight drops or small hop offs, with no additional skill(s), from the waist level or below are the only dismounts allowed to the performance surface without assistance.
Clarification: An individual may not land on the performance surface from above waist level without assistance.
- 4. Only straight pop downs, basic straight cradles and ¼ turns are allowed from any single leg stunt.
- 5. Up to 1 ¼ twisting dismounts are allowed from any 2 leg stunts.
Clarification: Twisting out of a platform body position is not allowed. A platform is not considered a 2 leg stunt.
- 6. No stunt, pyramid, individual, or prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- 7. Up to 1 trick is allowed during a dismount from any 2 leg stunt.
- 8. Any dismount from prep level and above involving a skill/trick (i.e. twist, toe touch) must be caught in a cradle.
- 9. No free flipping dismounts are allowed.
- 10. Dismounts may not intentionally travel.
- 11. Top persons in dismounts may not come in contact with each other while released from the bases.
- 12. Tension drops/rolls of any kind are not allowed.
- 13. When cradling single based stunt with multiple top persons, 2 catchers must catch each top person. Catchers and based must be stationary prior to the initiation of the dismount.
- 14. Dismounts from an inverted position are not allowed.

PRIMARY SCHOOL/CLUB MEDIAN DIVISION TOSSES

- 1. Tosses are not allowed.
Clarification 1: This includes "Sponge" (also known as Load Ins or Squish) tosses.

Clarification 2: All waist level cradles are not allowed.

PRIMARY SCHOOL/CLUB MEDIAN DIVISION GENERAL TUMBLING

1. All tumbling must originate from and land on the performing surface.
Clarification: A tumbler may rebound from his/her feet into a transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.
Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule for the Primary School/Club Median Division. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.
2. Tumbling over, under, or through a stunt, individual, or prop is not allowed.
Clarification: An individual may jump over (rebound) another individual.
3. Tumbling while holding or in contact with any prop is not allowed.
4. Dive rolls are allowed:
Exception 1: Dive rolls performed in a swan/arched position are not allowed.
Exception 2: Dive rolls that involve twisting are not allowed.
5. Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump skill is included in a tumbling pass, the jump will break up the pass.
Example: A round off>toe touch> back handspring>back tuck is not allowed. A back tuck is not allowed in the Primary School/Club Median Division.

PRIMARY SCHOOL/CLUB MEDIAN DIVISION STANDING TUMBLING

1. Flips are not allowed.
Clarification: Jumps connected to $\frac{3}{4}$ front flips are also not allowed.
2. Series front and back handsprings are allowed.
3. No twisting while airborne.
Exception: Round offs are allowed.

PRIMARY SCHOOL/CLUB MEDIAN DIVISION RUNNING TUMBLING

1. Flips:

- a. Back Flips may ONLY be performed in tuck position only from a round off or round off back handspring(s).
Examples of skills not allowed: X-outs, layouts, layout step outs, whips, pikes, aerial walkovers, and Arabians.
 - b. Other skills with hand support prior to the round off or round off back handspring are allowed.
Example: Front handsprings and front walkover through to round off back handspring back tucks are allowed.
 - c. Cartwheel tucked flips and/or cartwheel>back handspring(s)>tucks are not allowed.
 - d. Aerial cartwheels, running front tucks, and $\frac{3}{4}$ front flips are allowed.
Clarification: A front handspring (or any other tumbling skill) into a front tuck is not allowed.
2. No tumbling is allowed after a flip or an aerial cartwheel.
Clarification: If any tumbling follows a flip or an aerial cartwheel, at least one step into the next tumbling skill must be included to separate the two passes. Stepping out of a flip is considered a continuation of the same tumbling pass. An athlete must take an additional step out of a flip step out. However, if the athlete finishes the skill with both feet together, then one step out is all that is needed to create a new tumbling pass.
 3. No twisting while airborne.
Exception: Round offs are allowed.
Exception: Aerial cartwheels are allowed.

JUNIOR SCHOOL, VARSITY SCHOOL & REC/CLUB DIVISIONS

Note: The following rules apply to all remaining WSCC divisions (including Game Day) not previously listed in the WSCC packet. These following rules are not the rules for the Special Abilities Unified, ParaCheer Unified, and/or Primary School/Club Divisions rules- previously listed.

PARTNER STUNTS

1. A spotter is required for any static extended stunt where the top person's weight is being borne by the base(s)
Note: "Show and Go" stunts, where the top person is not in an extended static position, do not require a spotter.
2. A spotter is required for single base shoulder level stunts in which the feet of the top person

- are in the hand(s) of the base. (This spotter may assist under the sole of the foot.)
3. In stunts requiring a spotter, a spotter:
 - a. Cannot provide primary support for a top person. Primary support means the majority of the top person's weight.
 - b. Must be in position to protect the top person's head, neck and shoulders when coming off a stunt or pyramid or landing in a cradle. In most stunts, this required spotter position is located behind or beside the top person.
 - c. Must have their attention focused on the top person. Momentarily looking away in order to assess environmental safety factors (poms, signs, another stunt, etc.) is allowed as long as their focus returns to the top person.
 - d. May not have their hands behind their back.
 - e. May not support under the heel or sole of the top person's foot in a single based extended stunt. The spotter may hold at the ankle of the top person and/or the wrist of the base or any combination thereof.
 - f. May not hold any objects in their hands.
 4. The top person cannot travel over another person from Quick Tosses or Partner Tosses.
 5. The base of any extended stunt must have both feet in direct weight-bearing contact with the performance surface.
 6. Bases may not:
 - a. Hold any objects in a hand that is supporting the top person.
 - b. Assume a backbend, handstand or headstand position.
 7. Partner stunts and pyramids may not pass over, under or through other partner stunts or pyramids.
 8. The total number of twists in a dismount from a stunt cannot be greater than $1\frac{1}{4}$ rotations.
 9. Cradle dismounts from partner stunts shoulder height or above to the original base(s) require an additional spotter in a position to protect the head, neck and shoulders of the top person.
 10. In all dismounts to catchers who are not the original bases, the following conditions must be met:
 - a. The top person must be cradled by two catchers and a head-and-shoulders spotter/catcher.
 - b. The new catchers must remain close to the original bases.
 - c. The new catchers must be in place and not involved in any other skill when the release is initiated.
 - d. The top person may not perform any skills (twist, toe touch, etc.) following the release.
 11. In all cradle dismounts, the top person must not hold props that are made of hard material or have corners or sharp edges.
 12. Unless listed below, a release stunt must either be cradled or connected to at least one bracer.
 - a. Helicopters are allowed provided all of the following conditions are met:
 - i. The top person makes no more than a 180 degree rotation (half / $\frac{1}{2}$ turn).
 - ii. Four bases must be in position during the entire release.
 - iii. There must be a base at the head/shoulder area during the initiation of the toss as well as the catch.
 - iv. The bases are not allowed to change positions during the release.
 - v. The top person must begin and end in a face up position.
 - vi. The top person cannot perform a twisting skill.
 - b. A log roll is legal provided it does not involve more than one complete rotation and the top person is not in contact with another person in a release stunt. The following additional conditions apply:
 - i. In a single-base log roll, the top person must rotate toward the base and begin and end in a face-up position.
 - ii. In a multi-base log roll, the top person must begin and end in a face-up or face-down position.
 - c. A top person in a vertical position at prep level may be released to a stunt at any level provided that the top person remains vertical, and the top person performs no more than $1\frac{1}{4}$ twisting rotations.
 - d. A top person in a horizontal position shoulder height or below or in a cradle may be released to a loading position or to a stunt at shoulder height or below.
 - e. Legal inversion releases are listed under Inversions Rule D.
 13. Non-braced suspended splits in a transition are allowed provided all of the following conditions are met:
 - a. The top person must have both hands in continuous hand-to-hand contact with a post or with both bases' hands or,
 - b. During transitions to the split without continuous hand-to-hand contact under the following conditions:
 - i. There are a total of three bases that support the top person.

- ii. At least two of the bases must support under the legs of the top person. The third base may support the top person under the legs or in contact with the hands of the top person.
 - iii. The top person must have both hands in contact with the bases during the split portion of the transition.
14. Extended Straddle Lifts must have an additional spotter for the head and shoulders of the top person (similar position to a Double-Based Elevator/Extension Prep).
 15. Single-based stunts in which the top person is parallel to the performance surface and the bases' arms are extended must have a continuous spotter at the head and shoulder of the top person (e.g. Bird, Side T. Single-Based Flatback, etc.)
 16. A top person may be moved from a vertical position to a horizontal position (straight body or cradle) provided all the following conditions are met:
 - a. The top person maintains contact with at least one original base or spotter.
 - b. At least two catchers and/or based catch the upper body of the top person.
 - c. The catchers must be to the side or front of the person(s) moving the top person.
 - d. When the catchers are not the original bases, they remain close to the original bases and must be in place prior to the movement to the horizontal position.
 - e. When the catchers are not the original bases and the top person begins or passes through an extended overhead position, at least three catchers are required.
 17. A single-base may not be the only primary support for two extended top persons.
EXCEPTION: Double Cupies/Awesomes are allowed. If dismounted to cradles, there must be three people for each top person being cradled.
 18. Dismounts to the performance surface from shoulder height or above must have assisted landings. This assistance must be sufficient to slow the momentum of the top person. If the dismount involves a skill (e.g. toe touch, twist, etc.), there must be an additional spotter who may, but is not required to provide assistance.
 19. A swinging stunt is legal provided all of the following conditions are met:
 - a. A downward movement is only allowed from below shoulder height.
 - b. The top person is face up.
 - c. The top person begins from the performance surface or in a stunt that is below shoulder height.

20. A top person must not be in a face down suspended position between bases in which the top person's torso is suspended below the arms and legs.
21. Single-based split catches are prohibited.
22. Tension drops are prohibited.

INVERSIONS

Note: Inversions are partner stunts or pyramids in which the top person has her or his shoulders below the waist. In addition to the following rules, all persons involved in an inversion must follow all rules from the Partner Stunt and Pyramid sections.

1. Unless allowed under the rules of this section, a top person must not be in an inverted position.
2. An inverted top person may pass through an extended position, but must not begin, end, pause or stop in a static extended inverted position.
3. Suspended rolls are allowed provided:
 - a. Two people on the performance surface control the top person with continuous hand-to-hand/arm contact to a stunt, two-person cradle, loading position or the performing surface.
 - b. A single base or post controls the top person with continuous hands-to-hands contact to a stunt, two-person cradle, loading position or the performance surface.
 - c. A single base/post suspended roll that ends on the performance surface requires a spotter.
 - d. If caught in a cradle, load or stunt, the new catches are in place and are not involved in any other skill when the suspended roll is initiated.
 - e. The feet/ankles of the top person are released.
4. Braced inversions in a pyramid that do not flip or roll are allowed provided the following conditions are met:
 - a. Braced inversions that release must follow the Release Pyramid Transition Rule 7.
NOTE: Braced inversions that do not release are treated just like any other non-released braced stunts and must follow Pyramid Rules 1-5.
Braced rolls are in this category.
5. Braced flips or rolls in a pyramid are allowed provided all the following conditions are met:

- a. The top person begins in multi-base loading position, stunt, cradle, or on the performance surface.
 - b. The top person maintains continuous hand-to-hand/arm contact with two bracers who are in double base preps with a spotter. Each arm of the top person must be connected to a bracer.
 - c. The top person is not behind the bracers.
 - d. At least three catchers (one base and two spotters or two bases and one spotter) who were the original bases/spotters catch the top person in a loading position, stunt or cradle, or assist the top person to the performance surface. If the flip ends in a cradle, the bracers may release the top person once she/he begins to descend and is no longer inverted.
 - e. The top person ends in a non-inverted position.
 - f. The top person does not perform more than one and one quarter ($1\frac{1}{4}$) flipping rotations and no more than one half ($\frac{1}{2}$) twist.
 - g. The bases/catchers remain stationary except as necessary for safety adjustments.
6. In all other inversions:
- a. A top person in an inverted position on the performance surface may be released to a loading position below prep level.
 - b. Static inversions at prep level require two bases or a base and spotter. The spotter is not required to be in contact with the top person.
 - c. A release transition from a static inverted position to a non-inverted position is allowed provided all of the following conditions are met:
 - i. The top person lands at or below prep level.
 - ii. The top person does not twist more than a $\frac{1}{4}$ rotation.
 - iii. There is a spotter.
 - d. In inversions where the base of support begins and remains below prep level:
 - i. At least one base or spotter must be in a position to protect the head/neck of the top person.
 - ii. The base or spotter must maintain contact with the top person's upper body (waist and above, including arms/hands) until the top person is no longer inverted or his/her hands are on the performance surface. The contact must be sufficient to stabilize/control the top person's position.
 - e. In inversions where the base of support begins at or passes through prep level:
 - i. At least two people on the performance surface must be in a position to protect the head/neck of the top person.
 - ii. The bases/spotters must maintain contact with the top person's upper body (waist and above, including arms/hands) until the top person is no longer inverted or his/her hands are on the performance surface. The contact must be sufficient to stabilize/control the top person's position.
EXCEPTION: A foldover stunt that begins at or below prep level and does not stop in an extended position is allowed without initial upper body contact.
 - iii. The top person must not go directly to an inverted position on the performance surface from a prep or higher.
 - f. When the stunt begins in an inversion and goes to a non-inverted position, the upper body contact may be released before the top person is no longer inverted.
 - g. Dismounts from inverted stunts to a cradle or an upright position on the performance surface are allowed provided that the top person begins in a static or "pump and go" position (e.g. handstand) and does no more than a $\frac{1}{4}$ turn. Dismounts to the performance surface from shoulder height or above must follow Partner Stunt Rule 18.
7. An inverted top person must not hold objects (e.g. poms, signs, etc.) in his/her hands.
EXCEPTION: During a transition from an inverted position on the performance surface to a non-inverted stunt, a top person can hold objects.

PYRAMIDS

Note: In addition to these specific pyramids rules, all persons and stunts involved in a pyramid must follow all rules from the Partner Stunt and Inversion sections.

1. The top person in a pyramid must receive primary support from a base or be connected to a bracer who is on a base.
2. A bracer may not support a majority of a top person's weight.
3. In pyramids where one static extended stunt braces another static extended stunt, the connection must be hand/arm to hand/arm.
4. Partner stunt and pyramids may not pass over, under or through other partner stunts of pyramids.
5. If a person in a pyramid is used to brace the foot/leg of an extended stunt, that brace must not be supporting a majority of the top person's weight. (To demonstrate this, the foot of the top

person's braced leg must be at or above the knee of their supporting leg.)

6. Hanging pyramids must have a continuous spotter for each shoulder stand involved in suspending another person. Hanging pyramids are not allowed to rotate.
7. In a Released Pyramid Transition, the following rules apply:
 - a. The skills before and after the release must be legal, including the required spotters
 - b. The top person must be in hand/arm to hand/arm contact with at least one bracer during the entire transition.
 - c. The top person and each bracer must have a separate spotter.
EXCEPTION: Bracers in shoulder sits and thigh stands do not require a spotter.
 - d. The top person may not be supporting his or her weight on any other body part of the person(s) assisting (e.g. shoulders of the bracer).
 - e. The released top person and bases make no more than a $\frac{1}{4}$ turn around the bracer in a continuous movement in which the top person remains above the original base(s). The top person must be continuous in motion and cannot be supported so that there is a pause during the transition.
 - f. The bracer must be at prep level or below and must not serve as the primary support for the top person.
 - g. The top person must be caught by the original bases.

Note: For Braced Inversion Pyramid Rules see "Inversions".

TOSSES

The rules in this section only apply to tosses where someone is under a foot, e.g. basket tosses, elevator/sponge tosses, toe pitch tosses, etc.

1. All tosses in this section are prohibited for Elementary/Primary School, Middle/Junior School and Junior High School, as well as all Rec Club and International Club Divisions- with the exception of the International Junior Club Division (ages 12-16 within the year of competition) and International Senior Club Division (ages 15 years + within the year of competition).
2. In all tosses:
 - a. No more than four tossers are allowed.
 - b. The top person must be caught in a cradle.
 - c. The cradle must include at least three of the original tossers.

- d. One of the catchers must be at the head and shoulders of the top person.
- e. The toss may not be directed so that the bases must travel to catch the top person (The bases can turn/rotate under the toss.)
- f. The top person must not land in an inverted position.
- g. The top person may not hold any objects (poms, signs, etc.) during the toss.
- h. The top person cannot travel over or under another person or through a prop.
- i. The total number of twists cannot be greater than one and one quarter ($1\frac{1}{4}$) rotations. EXCEPTION: Switch liberties (also called "Giddy Up" or "Tick Up") are allowed.

TUMBLING AND JUMPS

1. Dive rolls are prohibited.
2. Flips greater than one rotation are prohibited.
3. Twists greater than one rotation are prohibited.
4. A forward three-quarter flip to the seat or knees is prohibited.
5. Tumbling or rebounding over, onto, or under a stunt, person or prop is prohibited.
EXCEPTIONS:
 - a. Cartwheels, rolls and walkovers with poms or over a person are allowed.
 - b. Aerials and standing back tucks with poms are allowed. (Back handsprings with poms are prohibited)
6. A flip that lands in a partner stunt or cradle is prohibited. (Example: A back flip from a tumbling pass into a cradle is prohibited. However, rebounding from a back handspring into a cradle is allowed.)
7. Landings for all jumps must bear weight on at least one foot. (Example: A toe touch jump directly to the seat, knees, or landing with both feet back, or to a push-up position are prohibited.)
8. Knee drops are prohibited without first bearing weight on the hands.
9. Drops to a prone position (e.g. pushup) on the performance surface are prohibited.
10. Airborne skills without hip over-head rotation may not jump from a standing or squatting position backwards onto your neck, shoulder and hands. (This rule only refers to a type of entrance into the "kip-up/rubber band" skill.)

XIV. SPECIFIC SURFACE RESTRICTIONS

(Note: VERY IMPORTANT- For all Cheerleading Divisions in and out of competition)

1. The following skills are only allowed on a matted surface, grass (real or artificial) or a rubberized track surface:
 - a. Basket tosses, elevator/sponge tosses and other similar multi-based tosses.
 - b. Partner stunts in which the base uses only one arm to support the top person.
 - c. Twisting tumbling skills (e.g. Arabians, full twisting layouts, etc.).
EXCEPTION: Cartwheels, round-offs and aerial cartwheels are allowed on surfaces other than a matted surface, grass (real or artificial) or a rubberized track surface.

Copies of these guidelines should be distributed to all team members and any administrators involved with the Cheerleading program. All guidelines should be understood and accepted by all parties involved in the cheerleading program including coaches, assistants, team members, parents and administrators.

The enclosed safety guidelines are general in nature and are not intended to cover all circumstances. All cheerleading skills including partner stunts, pyramids, tumbling and jumps should be carefully reviewed and supervised by a qualified adult coach.

Cheerleading jumps, tumbling/gymnastics and stunts may involve height and inversion of the body and there is an inherent risk of injury involved with any athletic activity. While the use of these guidelines in coordination with AACCA Safety Course and/or the ICU Safety Course will help to minimize the risk of injury, AACCA and the ICU makes no warranties or representations, either expressed or implied, that the above guidelines will prevent injuries to individual participants.
